L70mm

How to wear

Hang the Headphone behind your neck with both speakers clinging to your cheekbones. After that, adjust it until you feel comfortable.

Note:

1. Due to different drivers, the sound quality of bone conduction headphones cannot be compared to headphones with speakers.
2. Open headphones cannot block external noise, which can cause users to feel that the volume is lower than the actual volume, or there may be sound leakage issues when increasing the volume.

Specifications

Music play time 6 Hours@70% Volume
Battery capacity 200mAh
Standby time 100 Hours
Charging time 2 Hours
Bluetooth Version 5.3

Connection distance Bluetooth 10 Meters

Attentions

1. Please wear the bone conduction speakers of the headphone at your cheekbones before your ears and don not put them in your ears.
2. Listening to music for an excessively long time may make you feel uncomfortable. Please try to use a medium volume instead of a high one.
3. No matter how the volume is, please do not make it prevent you from hearing the surrounding sounds.
4. Do not throw, press the headphone or put it in the water.
5. The headphone should keep away from fire, water and high voltage devices.
6. It is not for children's use as it contains small parts.
7. It's equipped with a lithium battery; please dispose of it in accordance with local policies.

A If there is any injury or property loss due to violation of the above contents, we will not bear any responsibility.

Please keep the charging port clean before charging. Wipe dirt and sweat from the charging port when not used.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Statement

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction
