Requesting an addition of the FCC ID - FCC

On the behalf of Electronics4All, we would like Nemko to request an addition of FCC ID of one of our existing certified products. This addition will facilitate differentiating between the two products as the new product is just a simple variant of the original product.

The original certified product information:

Model	BMS-1001-TH
IC	26661-BMS01
FCC ID	2AXVKBMS01

Our plan is to continue to produce the BMS-1001-TH based on the current specification [unchanged]. The Date of Grant of the FCC certification for the BMS-1001-TH was 01/12/2021.

The new product information:

Model	P-GTW-BL300	
IC	26661-PGW01	(Requested)
FCC ID	2AXVKPGW01	(Requested)

Change of ID should be done on the original product.

The original test results continue to be representative of and applicable to the equipment bearing the changed identification.

Sincerely,

A handwritten signature in dark ink, appearing to be "Ahmed", written over a horizontal line.

Ahmed Abdelsamie, P.Eng.

CEO

Electronics4all Inc.
