FAQ

Question 1	Reason	Solution
Earbuds don't power on/work	The charging case or earbuds are out of power.	Place your earbuds in the charging case with the lid closed and charge the case for more than 30 minutes.
Only one earbud works/ Sound from only one side	The earbuds are no longer paired to each other.	Return the earbuds to the charging case and close the lid for 10 seconds, then take them out again.
Earbuds can not be charged	The earbuds may be smudged or full of make contact for charging.	Use a cleaning cloth with alcohol to remove dirt from the pins of earbuds and charging case.
Phone fails to connect to the earbuds	1. Earbuds are already connected to another device. 2. Earbuds are out of power.	1. Tap one earbud twice and hold it for 3 seconds to reset the earbuds. 2. Charge the earbuds for more than 30 minutes and try again. 3. If the case indicator flashes red and green alternately, you can continue to connect your phone with the earbuds again. 4. See solution to Question 1.

Cautions

requirements.

The equipment must comply with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- The device must not cause harmful interference.
- The device must accept any interference received, including interference that may cause undesired operation.

to user.

The user is responsible for making the following modifications, not expressly approved by the party responsible for compliance could void the authority to operate the equipment.

to the user.

- The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
- The equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:
 - to relocate the receiving antenna;
 - to increase the separation between the equipment and receiver;
 - to move the equipment into an circuit different from that to which the receiver is connected;
 - to use a shielded or twisted pair cable for help;
 - to use a different power outlet (and an extension) must not be located or operation in conjunction with any other electrical equipment.

are Statement

The equipment has been evaluated to meet general RF exposure requirement. The device can be used in the following conditions without restriction.
