COMPATIBILITY

- Apple iPhone 8 or higher, running iOS 14 (iPad coming soon)
- Apple Watch 3 or higher, running watchOS 7
- Apple AirPods or any Bluetooth headphones

CHARGE IT

Remove the charger and cable from the inside pocket of the carry case. Lift the rubber tab on the left side of your KIT and attach the charging cable. Allow about 5 hours for a full charge. Don't worry, you can pair and configure your KIT while charging.

PAIR IT

Download and install the the Full Swing app by clicking the following link from your iPhone:

<http://appstore.com/fullswing>

- Create a Full Swing account
- Pair your KIT
- Connect KIT to your Wi-Fi network (required for firmware updates)

UPDATE IT

While charging, you may see your KIT download and install a firmware update. This is good. We are constantly delivering the best experience while you relax.

POWER IT UP

The moment you've been waiting for. When you get to the range, push and hold the power button for 2 seconds. When you see the data tiles you're ready to connect the app and set it up (see next section).

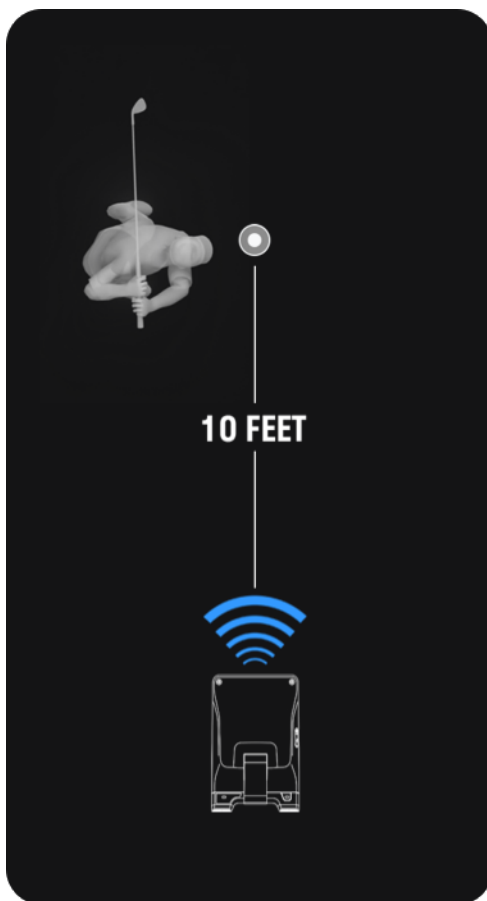

QUICK START GUIDE

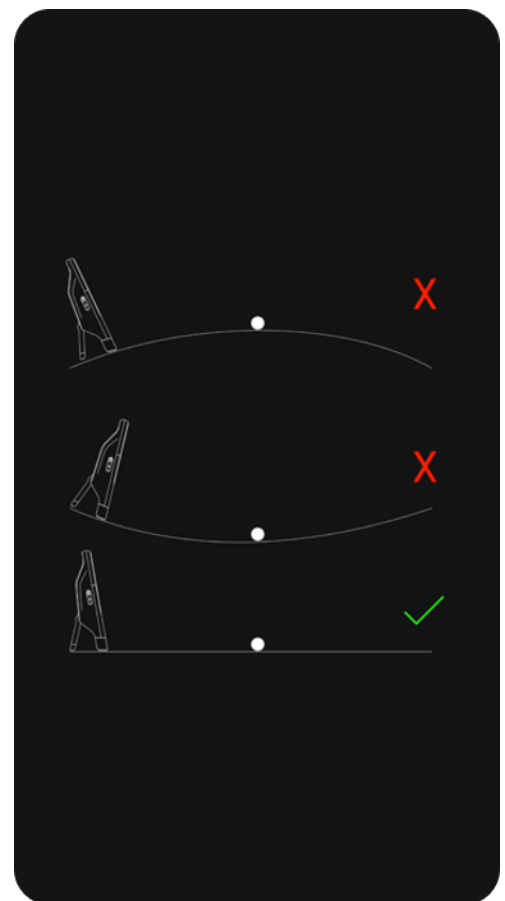

SET IT UP

Place your KIT directly behind the ball and make sure it's on a level surface approximately 10 feet directly behind your tee area.

PLACE YOUR KIT DIRECTLY BEHIND THE BALL

MAKE SURE YOUR KIT IS ON A LEVEL SURFACE

Now you're ready to to set a target:

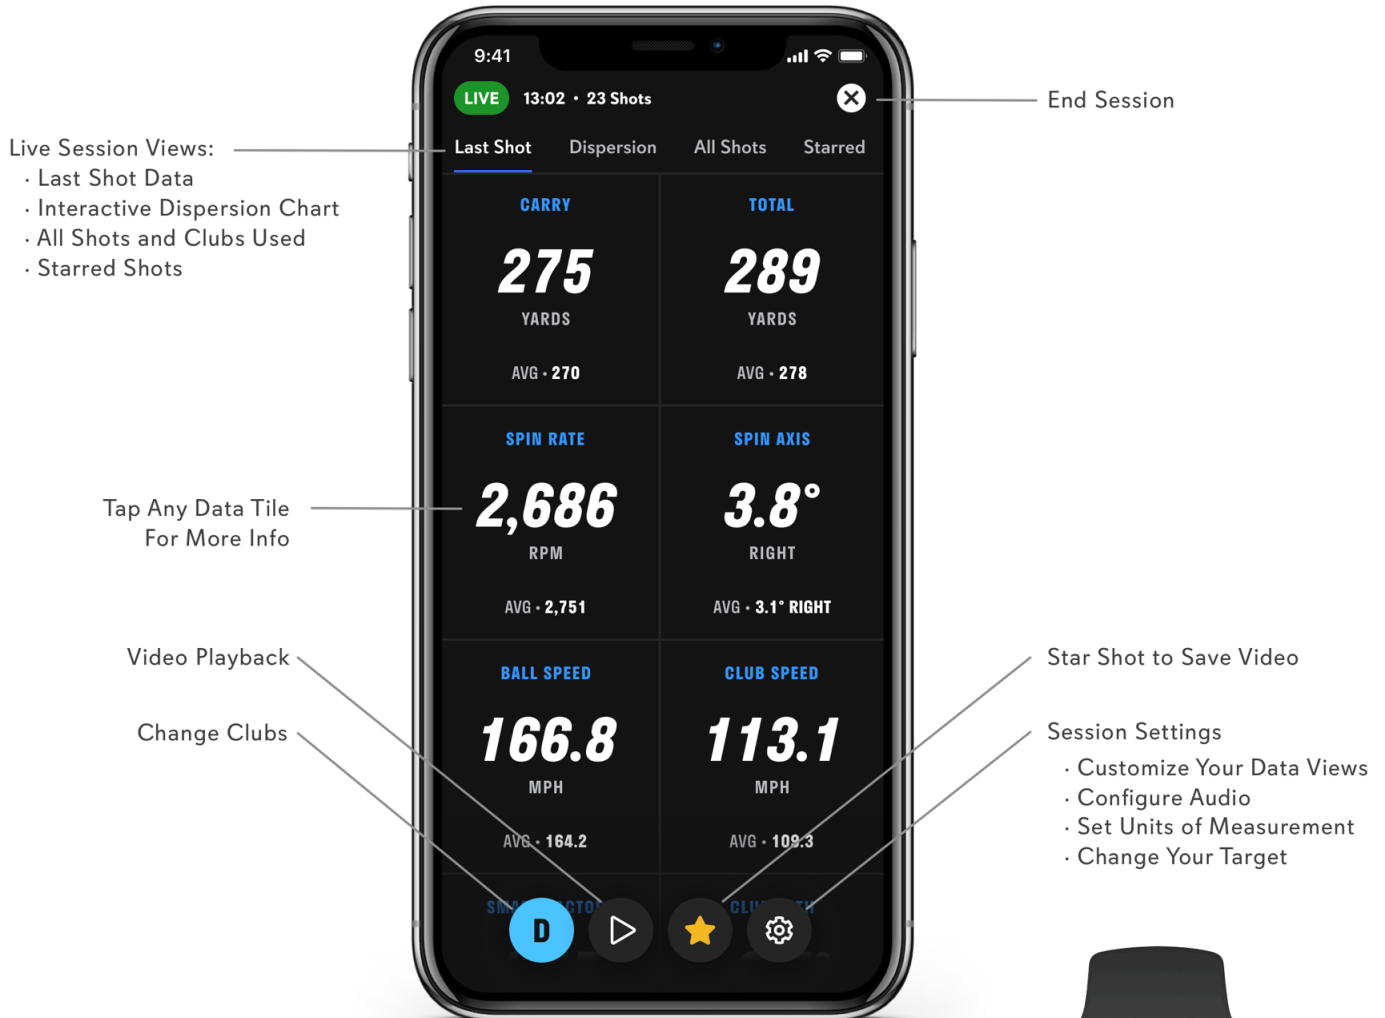

- Open the Full Swing app and **Start a Practice Session**
- **Connect** to your KIT and set your environment and location
- **Select a Club & Set a Target** - Aim your KIT so that the white line is pointed at your target and your ball is inside or near the blue drop zone.

TEE IT UP

Once you've selected a club and set a target you're ready to hit! Here's a quick overview of the app to get your bearings:

APPLE WATCH

If you have an Apple Watch, open the **FS** icon after you start a session. This will allow you view data, change clubs, star, and delete shots right from your watch. You can customize the data in Session Settings.
