

	Package list 01 (The pictures are for reference only, please refer to the actual products.)   Charging case *1 Earbuds *1pair Charging cable *1 Earbuds *3pairs Manual	Introduction 02  	Manual 03 Turn on Automatically turn on after taking the earbuds out, coming with Power On prompt Turn off 1.Back to the case: It will turn off after putting the earbuds back into the charging case 2.Overtime turn-off: It will turn off if there is no paired device within 3 minutes 3.Low-battery turn-off: It will turn off if the battery is low.You'll hear the prompt of Power Off	Manual 04 Restore factory setting Be sure the earbuds is unconnected and is searching Bluetooth, simultaneously long press the right/left earbuds for 8s to clean paired information and restore the factory setting. 	Manual 05 Charging Put the earbuds in the charging case to feed The earbuds state of charging When charging: The white indicator is always on Fully charging: LED indicator goes out The case state of charging When charging: The orange indicator is always on Fully charging: LED indicator goes out Tips: The charging caps is low priority when charging both earbuds and the case. 	Connection 06 Bluetooth pairing Entering the Bluetooth interface to find Moondrop Space Travel, click Enter to pair. The earbuds will enter into the pairing mode after disconnected, Moondrop Space Travel allows pairing with other devices. Disconnection 1.Over-distance disconnection: The earbuds will be automatically disconnected if beyond the effective working distance, you'll hear the prompt of Disconnect 2.Manually disconnection: Under the connected state (non-working state), simultaneously long-press the Touch of	Connection 07 Right and Left for 3s, disconnect the current device. Or manually turn off the Bluetooth device to disconnect. The earbuds will enter into the pairing mode after disconnected, Moondrop Space Travel allows pairing with other devices. Reconnection 1.Over-distance disconnection automatic reconnection: The earbuds will be automatically reconnected when it enters the effective working distance within 3 minutes, you'll hear the prompt of Connected 2.Reconnection: the earbuds will automatically reconnect	Connection 08 the last paired device when taken it out from the charging case. Please put the earbuds back in the charging port if there is one earbud quiet and disconnecting, and try to reconnect	Function 09  Operation Voice Assistant Click the left/right earbud 3 times to start, and click to exit *Part of Android smartphones require opening the "enable voice assistant" Music Play/pause: click the left/right earbud Previous/NEXT: double-click the left earbud for the previous song, and the right earbud for the next song. Call Answer: Click the left/right earbud Decline: Long press left/right earbud for 1.5s Hang up: Click the left/right earbud Third-party call: click the left/right earbud, keep the original call and answer the new call Switch the call: Double-click the left/right earbud	Function 10 Noise-canceling Mode In the turn-on state, Long-press Right/left for 1s to switch the mode The prompt of noise-canceling is Sh The prompt of regular mode is Eh The prompt of transparency mode is Heh Low-latency Mode In the turn-on state, click the right/left earbud for 4 times to switch mode The prompt of game: Game Mode Exiting game mode is Music Mode	product Specifications 11 Product Model: Space Travel Bluetooth Version: 5.3 Audio Transmission Formats: A2DP/AVRCP/HFP/HSP SBC/AAC Charging Plug: Type-C Impedance: 32±10%Ω@1kHz Bluetooth Range: 10 meters (unobstructed environment) Charging input: 5V - 1A Charging time of the case: about 1.5 hours Earphone Battery Capacity: 3.7V/37mAh Charging Case Battery Capacity: 3.7V/380mAh Earphone Playback time: About 4 hours With Charging Case Playback time: About 12 hours

Security Instructions Please read this important security instructions before using the equipment. This information contains general safety information applicable to this device and may include content not applicable to this device. Please follow the warnings and cautions to avoid injury to yourself or others damage to your equipment. Warning Failure to comply with safety warnings and regulations would result in serious injury or death. Do not use damaged power cord or plug or loose power socket Unsafe connections can cause electric leakage or fire. Do not use wet hands or other wet body parts to touch.	Security Instructions Touch the device, power cord, plug or power socket, otherwise it may cause electric shock. When unplugging the power cord, do not use too much force, otherwise it may cause electric shock or fire. Do not bend or damage the power cord, otherwise it may cause electric leakage or fire. Do not operate the device with wet hands while it is charging, otherwise it may cause electric shock. Do not directly connect the positive and negative terminals of the charger together, otherwise it may cause a fire or cause serious injury. Do not use the device outdoors during a thunderstorm, otherwise it may cause electric shock or equipment failure. Use batteries, chargers, accessories and supplies approved	Security Instructions by the manufacturer. • Using universal batteries or chargers may shorten the life of the battery or cause the device to malfunction. They may also cause a fire or cause the battery to explode. • Only use chargers and data cables specially designed for equipment and approved by MOONDROP. Incompatible chargers and data cables may cause danger or damage the device. • Do not operate the device with wet hands while it is charging, otherwise it may cause electric shock. • When customers use accessories or supplies not approved by MOONDROP, MOONDROP is not responsible for the customers' safety. • Do not put the device in the back pocket or hang it on the waist • Excessive force may damage the device, might cause explode	Security Instructions or fire. • If you hit or fall, you may be injured. Do not drop the device or subject it to strong impact • Otherwise, it may damage the device or battery, cause the device to fail to work normally, or shorten the device life. • It may also cause overheating, burning or other dangers. Handle and dispose of equipment and chargers carefully • Do not throw battery or device into fire. • Do not place batteries or devices in or on heating devices (such as microwave ovens, ovens, or radiators). The device may explode if overheated. • When disposing of used battery or device, please comply with local regulations.	Security Instructions • Do not squeeze or pierce the device. • Do not subject the device to external high voltage, otherwise it may cause internal short circuit and overheating. Protect equipment, batteries and chargers from damage. • Avoid exposing the device and battery to extremely cold or extremely hot temperatures. • Extreme temperature can damage the device, reduce the charging capacity of the device, and shorten the service life of the device and battery. • Do not use the data cable with the skin peeled off or damaged, and the charger with damaged or not working properly. Do not store device near or in water heaters, microwave ovens, hot cooking equipment, or high-pressure containers	Security Instructions •The battery may leak. •The equipment may overheat and cause a fire. Do not use or store the device in areas where dust or aeolian materials are concentrated Dust or foreign objects may cause device damaged, fire or electric shock. Prevent the charger socket and the smaller end of the charger from contacting conductive materials such as liquid, dust, metal powder, or pencil lead. Do not touch with sharp tools. Charger socket; do not bump the charger socket Conductive materials may short-circuit or corrode the contacts, which may cause explosion or fire.	Security Instructions When using a wireless charger, do not place metal objects, magnets, and magnetic stripe cards between the device and the wireless charger. The device may not charge properly or may overheat. Do not bite or suck the device or battery •Otherwise, it may damage the equipment or cause an explosion or fire. •Children or animals can suffocate by swallowing small parts. When children use this device, please make sure they use it correctly. Do not poke the device or its accessories into your eyes, ears or mouth, otherwise it may cause suffocation or serious injury.	Security Instructions Do not use damaged or leaking batteries. For safe disposal of batteries, please contact the nearest authorized service center. Do not use the device near other electronic devices Most electronic devices use radio frequency signals. Your device may interfere with other electronic devices. Equipment with speakers is particularly susceptible to interference. Do not use your device in places that may be interfered by radio frequency such as hospitals, airplanes or cars If possible, use the device beyond 37cm of the pacemaker to avoid interference with the pacemaker. In order to minimize the interference of the device to the pacemaker, please use the device on the side of opposite to the pacemaker. Note	Security Instructions Failure to comply with safety precautions and regulations can lead to personal injury or property damage Do not use the device near other electronic devices Most electronic devices use radio frequency signals. Your device may interfere with other electronic devices. Equipment with speakers is particularly susceptible to interference. Do not use your device in places that may be interfered by radio frequency such as hospitals, airplanes or cars If possible, use the device beyond 37cm of the pacemaker to avoid interference with the pacemaker. In order to minimize the interference of the device to the pacemaker, please use the device on the side of opposite to the pacemaker. Note	Security Instructions If you use medical equipment, please contact the medical equipment manufacturer before using this device to determine whether it will be affected by the radio frequency emitted by this device. During air flight, the use of electronic equipment will interfere with the aircraft's electronic equipment. Please follow the airline's regulations and the instructions of the "aircraft crew. If the equipment is allowed, please always use the flight mode. The electronic equipment of the car may malfunction due to radio interference from the equipment. For details, please contact the manufacturer. Do not place the device in a place with dense smoke or fog Otherwise, the surface of the device may be damaged or the device may malfunction. If you use hearing aids and cochlear implants, please contact	Security Instructions the manufacturer for information about radio interference. The radio frequencies emitted by this device may interfere with certain hearing aids and cochlear implants. Before using this equipment, please contact the manufacturer to determine whether the equipment will be affected by the radio frequencies emitted by this device. Do not use the device near radio frequency devices or instruments (such as audio systems or radio antenna towers) Radio frequency may cause device malfunction. Turn off the device in a potentially explosive environment Always operate in accordance with regulations, instructions and signs in an explosive environment. Do not use the equipment in gas stations or near flammable materials, chemical agents and explosive areas.	Security Instructions Do not store or carry flammable liquids, gases or explosive materials in boxes containing device or accessories. If any part of the device is damaged, smokes, or smells of burning things, please stop using the device immediately. The equipment can not be reused until being repaired by the MOONDROP Service Center. Broken glass may hurt your hands and face. If the device emits smoke or the smell of burning things, it may cause the battery to explode or burn. Please observe all safety warnings and regulations regarding the use of equipment while driving. Driving safely is your primary responsibility while driving. If prohibited by law, please do not use the device while driving. For the safety of you and others, please follow the safety	Security Instructions warnings and relevant regulations and remember the following tips: •Place the equipment in an easy-to-access location. No need to look away from the road to get the wireless device. •In order to avoid danger, pause the call in traffic jams or bad weather conditions (rain, sleet, snow, ice). Rain and sleet, snow, ice and heavy traffic can cause danger. •Do not record voice memos. Recording a language memo while driving prevents you from focusing on the primary responsibility of driving safely. •According to the traffic situation, decide whether to answer the call reasonably. Answer calls when not moving forward or in traffic jams. Try to call after parking. •Do not engage in nervous or excited conversations to avoid	Security Instructions distraction. Please let the caller know that you are driving. Properly maintain and use equipment Keep the equipment dry •Moisture and liquid can damage equipment parts or circuits. •Do not turn on the device when it is wet. If the device is turned on, turn it off (if the device cannot be turned off, please maintain the status quo). Then dry the equipment with a towel and contact the local MOONDROP service center. •This equipment is equipped with a built-in liquid indicator. Water damage to the equipment will invalidate the manufacturer's warranty. The device should be stored on a flat ground.If the device falls, it will be damaged. The device can be used where the atmosphere temperature is	Security Instructions between 0°C and 35°C. You can store the device where the ambient temperature is between -20 °C and 50 °C. Using or storing the device outside the recommended temperature range may cause damage to the device or shorten battery life •Do not store the device in extremely hot areas, such as in a car or near a heater. Otherwise, the equipment may be damaged or the battery may explode. •Do not expose the device to direct sunlight for a long time, such as on the dashboard of a car. Do not store the device with metal objects such as coins, keys and necklaces. •The device may be scratched or malfunction. •If the battery contacts come in contact with metal objects, it may cause a fire. Do not store the device near magnetic fields

Security Instructions

27

•When exposed to a magnetic field, the device may malfunction or the battery may discharge.

•Magnetic stripe cards (including credit cards, phone cards, bank books and boarding cards) may be damaged by magnetic fields. Avoid contact with the device when it is overheated.

Otherwise it may cause low temperature burns, redness and skin pigmentation

•After using the device for a long time, pay attention to the heating of the device and avoid contact with the skin for too long.

•Do not sit on the device, or keep in direct contact with your skin for a long time while the device is charging or connected to the power source.

•High temperature resistance varies from person to person.

Security Instructions

28

Please pay special attention when using it by children, the elderly. Protect hearing and ears when using earplugs.

•Excessive exposure to strong sounds can cause hearing loss.

•Contact with strong sounds while walking may distract you and cause accidents.

•Always turn down the volume before using earplugs, and use only the lowest volume required to listen to conversations or music.

•If there are foreign objects on the earplugs, and you wear the earplugs for a long time, it may cause ear infections. Please keep the earplugs dry and clean.

•In a dry environment, static electricity may accumulate in the earplugs. Avoid using this earplug in a dry environment, or touch metal objects to discharge static electricity before using

Security Instructions

29

the earplug.

•Do not use headphones while driving or riding a horse. Otherwise, it may distract you and cause accidents. Depending on your area, this may also be illegal.

Precautions for using the device during walking or moving.

Always pay attention to your surroundings to avoid harming yourself or others.

Do not print or paste paper on the equipment

If you are allergic to the paint or metal parts of the device, it may cause itching, eczema or swelling of the skin. When the above situation occurs, please stop using the device and consult a doctor.

Install the device cautiously

Security Instructions

30

Do not place equipment and accessories in or near the airbag deployment area. If the equipment is improperly placed, the airbag inflates rapidly, which can cause serious injury.

Do not drop the device or cause collision

•The device may be damaged or malfunction.

If the device is bent or deformed, it may damage the equipment or cause parts malfunction.

Ensure the longest service life of the battery and charger

•If the battery is not used for a long time, the battery may malfunction.

•The equipment will discharge if left unused for a long time, and must be recharged before use.

•When the equipment is not in use, disconnect the power supply.

Security Instructions

31

•The battery can only be used for the designated purpose.

•Follow all the instructions in this manual to ensure the longest service life of the device and battery. The manufacturer will not provide warranty for damage or poor performance caused by failure to follow the warnings and instructions.

•The device may wear out over time. Although some parts and repairs are guaranteed during the validity period, damage or deformation caused by the use of unapproved accessories is not covered by the warranty.

Do not disassemble, modify or repair the equipment

•Any changes or modifications to the equipment will cause the manufacturer to not guarantee the equipment. For repairing, please contact your local MOONDROP authorized dealer.

•Do not disassemble or pierce the equipment, as this may

Security Instructions

32

cause an explosion or fire.

•Do not disassemble or reuse the battery.

When cleaning the equipment, please follow the following advice

•Use a soft and dry cloth to wipe the device, use a brush or other tools to remove the earwax or dirt on the earpiece.

•Clean the battery contacts with a dry cloth.

•Do not use chemicals or cleaning agents. Otherwise, the surface of the equipment may be discolored or corroded, and it may also cause electric shock or fire.

Prevent the equipment from contact with dust, sweat, ink, oil, and chemical products (such as cosmetics, antibacterial sprays, hand sanitizers, detergents and insecticides.) Otherwise, the internal and external parts of the device may be damaged, or

Security Instructions

33

the performance may deteriorate. If the device comes into contact with any of the above-mentioned substances, please wipe it with a soft, lint-free cloth.

Do not use the device for any purpose other than the designated purpose

The device may malfunction.

Avoid disturbing others when using the device in public places

Only qualified personnel are allowed to repair the device

If the equipment is repaired by unqualified personnel, the equipment may be damaged and the warranty will not be provided.

Content of hazardous substances in products

Name	Hazardous substances and elements					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent Chromium (Cr(VI))	Polybrominated Diphenyl Ethers (PBDEs)	Poly Australian Diphenyl Ether (PADEs)
Circuit components	X	0	0	0	0	0
Wiring harness	X	0	0	0	0	0
Plastic parts	0	0	0	0	0	0
Speaker	0	0	0	0	0	0
Battery	0	0	0	0	0	0
Case	X	0	0	0	0	0

This form is compiled in accordance with SJ/T 11364. It indicates that the amount of the hazardous substance in all homogeneous materials of the part is below the limit requirement specified in GB/T 26572-2011, X: Indicates that the amount of the hazardous substance in all homogeneous materials of the part exceeds the limit requirement specified in GB/T 26572-2011, and there is currently no mature process to handle such parts or substances properly to avoid impact on the environment and human.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
