

# ANTENNA SPECIFICATION

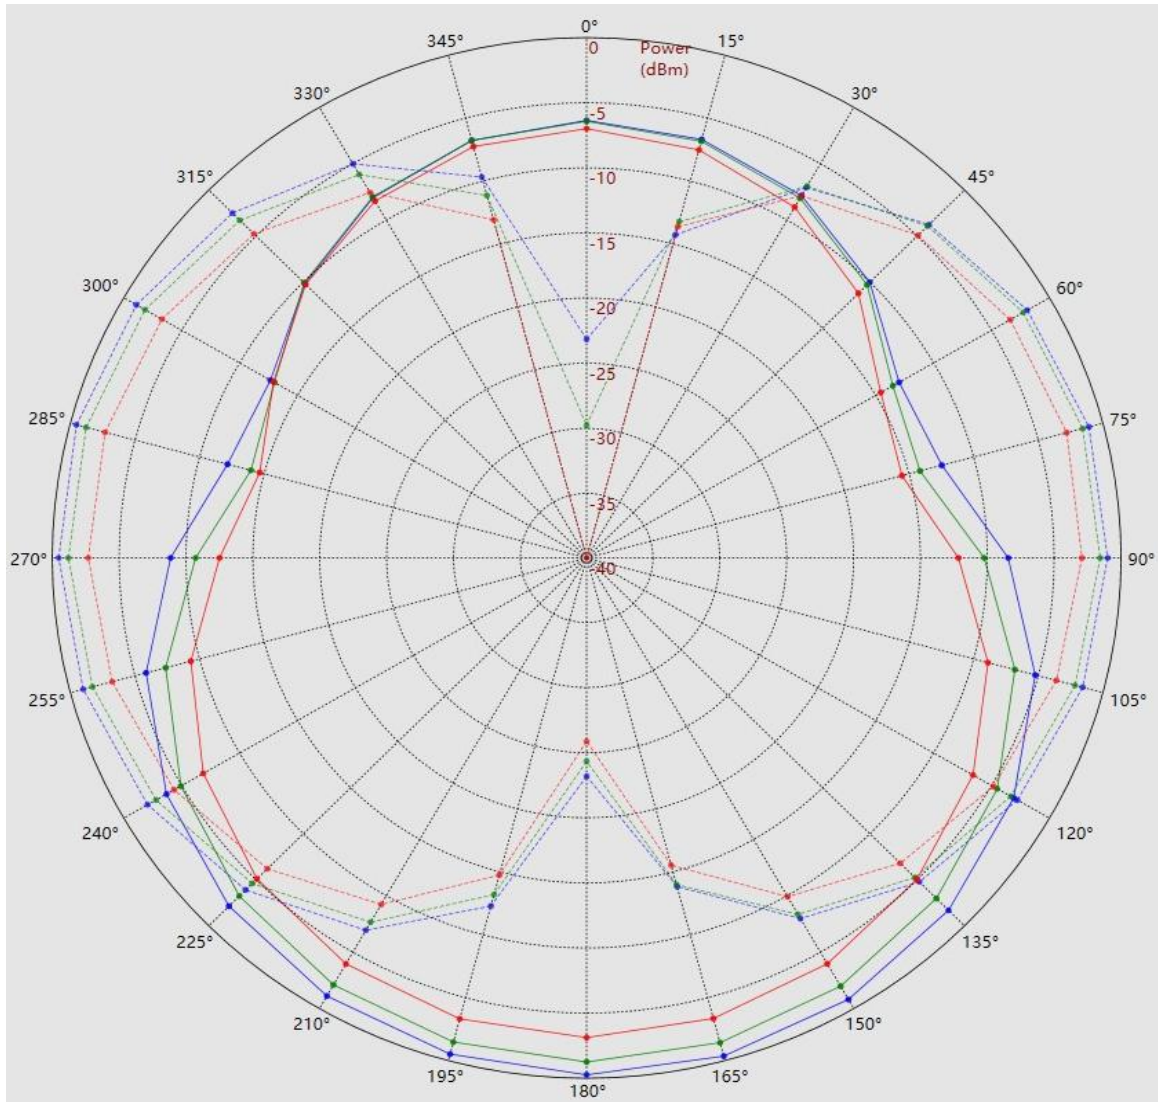

## Summary

| ITEM             | ANT SPEC                                                                                                       |
|------------------|----------------------------------------------------------------------------------------------------------------|
| Model Name       | SRD ANT                                                                                                        |
| Antenna plate    | PCB antenna                                                                                                    |
| Center Frequency | 315MHz                                                                                                         |
| MAX. Gain        | 0dBi                                                                                                           |
| Polarization     | Horizontal and Vertical                                                                                        |
| Impedance        | 50Ohm                                                                                                          |
| Manufacture      | HangZhou ZhaoTeng Technology Co., Ltd                                                                          |
| Address          | Room 505, unit 1, building 3, Wanda business center, Gongshu District, Hangzhou City, Zhejiang Province, China |

## Antenna Photo

Length 30mm and width 27mm

| Frequency<br>(MHz) | Gain(dBi)  |        |          |        |
|--------------------|------------|--------|----------|--------|
|                    | Horizontal |        | Vertical |        |
|                    | Max.       | Min    | Max.     | Min    |
| 315                | 0.00       | -26.15 | -0.24    | -27.51 |
