ASSEMBLY

FCC REQUIREMENT

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

FCC REQUIREMENT

This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

KINDLY NOTE

1. ONLY compatible with iPhone 12/13 Series
2. Please plug the USB cable into the QC 3.0 car charger to ensure fast charging.
3. Please use the QC3.0 car charger for fast charging; it will improve the charging efficiency. (NOT INCLUDED)
4. Please make sure to use Mag-Safe Cases if your phone has a case.
5. Check and remove foreign objects on the back of the phone
6. It is not recommended to use in extreme environments
7. Close the running app on the phone to reduce power consumption.
8. With over-temperature protection, the product may stop working if the temperature exceeds 50°C
9. Please rotate the air vent clip to grip the air outlet
