Application for Class II Permissive Change (C2PC) - FCC

Dear Sir/Madam:

We respectfully wish to apply for a Class II permissive change (C2PC) for the above referenced FCC Identifier under the provisions of FCC rule [§ 2.1043](#).

The purpose of this application is to add the following features or modifications to the existing initial certification:

1. ZL70103 made by Microchip is obsolete and replaced by ZL70124. ZL70124 is not altered prior to use. ZL70124 is used in the Home Base Station 2 (HBS2) in the same capacity as the obsolete component. The only affected transmitter in this replacement part is the 2.4GHz amplifier. All other components are unaffected and unchanged. Canary Medical USA LLC is applying for Class 2 Permissive Change under FCC ID 2YAJ-BS1.

We affirm that the changes are within the boundaries of the [KDB 178919 D01 Permissive Change Policy v06](#) and do not compromise the compliance of the equipment with applicable FCC rules and regulations. All changes have been thoroughly evaluated and tested to ensure continued compliance. Supporting test reports are included with this application.

We certify that no party to this application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug abuse Act of 1988.

Sincerely,

Signature:

Name:

Nora C.R. York

Title:

VP of QA/RA
