Please read this instruction manual carefully before use, and properly keep this manual for future use..

Packing list

stunt car X1

remote control X1

3.7V battery X1

USB charging cable x1

manual x1

Installation and charging method for the batteries of stunt car and remote control

Connect the battery to the charging cable, then plug the USB charging cable into the USB port of the computer or the USB charger. Then turn on the power. When the red light is on, it means that charging is in progress, and when the red light is off it means the battery has been fully charged.

Installation method of remote control battery

- (1) Open the battery cover on the backside of the remote control..
- (2) Insert 2×1.5V "AA" batteries with correct direction and cover the battery cover.

After charging is complete, open the battery cover and place the battery in the battery compartment

Connect the battery pack to the stunt car connector and close the battery cover

Remote Control Function

Instruction of light switch:

Short press one time to switch one lighting effect, long press to turn off the swing arm light, and long press again to turn it on.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
