

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a small, rectangular printed circuit board (PCB) populated with various electronic components, including integrated circuits, resistors, and capacitors. The board is positioned horizontally next to a black L-shaped ruler with white markings in millimeters. The ruler indicates the board is approximately 100 mm long and 20 mm wide. The background is a light blue textured surface.
Solder Board-Component View 3	 A photograph showing two components from the previous view. On the left is a small PCB with a single component. To its right is a larger, black rectangular component with the 'LITECH' logo and 'S-8000' printed on it. Both are placed next to a black ruler with white markings. The ruler shows the components are approximately 100 mm long. The background is a light blue textured surface.

Solder Board-Component View 4	 A photograph showing a small electronic component, likely a Bluetooth module, with a black rectangular antenna attached. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is oriented diagonally, with the antenna pointing towards the top right.
Antenna View 1	 A photograph showing the same electronic component and antenna from a different angle. A red rectangular box highlights the antenna area, and a red line points from a label "BT Ant." to this box. The component is placed on a blue textured surface. The antenna is a black rectangular patch with some white markings.
