

I don't have internet right now

You can use Unity as a standard bluetooth headphones and listen to music from your smartphone.

Pair with an iOS phone

1. Go to Settings > Bluetooth
2. Look for UNITY-XXXX

Pair with an Android phone

1. Go to Settings > Bluetooth
2. Look for UNITY-XXXX

Start without app

Unity assistant will guide you through your experience. Connect to a Wi-Fi network, synchronize your music providers and listen to your favorite music without looking at a screen.

Follow voice instructions

OR Start with app

Download Unity app and follow the onboarding process. Connect to a Wi-Fi network and get the best audio experience with our Full Fidelity™ quality standard.

Or go to hedunity.com
