

Instruction Manual

Specifications

Model No.	EK1023
Input Power	5V/500mAh
Speaker Output Power	4Ω 5W
Distortion	≤10m
Dimensions	9.5*11.5*3.9cm

Product Overview

1. Power button
2. Replaceable lenses
3. Type-C charging port
4. Bracket

Operating Instructions

1) Charging the Speaker

Connect the included charging cable to the output of the speaker and charger or power source (not included). During charging, the LED indicator will continuously light up in red. Once fully charged, the charging indicator will turn off.

2) Power Button

Long press the power button to turn the audio on/off.

Short press the power button to play/pause audio. Short press three times to toggle the LED light.

3) Bluetooth Pairing

- Press and hold the power button to turn on the audio device. You will hear a prompt tone, and the LED indicator will slowly flash in blue, then enter Bluetooth pairing mode.
- Turn on the Bluetooth function on your phone or other device, search for "EK1023" in the list, and then proceed with pairing. A notification sound will be heard upon successful pairing. Audio played through the connected device will be outputted from the speaker.

4) S.: Before pairing, please disconnect the speaker from other Bluetooth devices.

4) Bracket

You can open the stand to place the speaker on a table.

Tips

- 1) Bluetooth connection and transmission are available. Due to the influence of surrounding materials such as trees and metals, the signal may be absorbed or blocked, thereby affecting the data transmission distance.
- 2) When using the speaker for the first time, please fully charge it. When the battery level of the speaker decreases, the sound quality may not be as good as usual, so it is recommended to charge it immediately.
- 3) Do not expose the audio device to high temperatures.

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
