Solder Board-Component View 2	 A photograph of a small, L-shaped electronic component with a black PCB. The component has several circular solder pads and a small white label with the text "SEM2001", "P-10703", and "2303". It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 3	 A photograph of the same electronic component from a different angle. The component is black with several circular solder pads and a small white label with the text "SEM2001", "P-10703", and "2303". It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.

Solder Board-Component View 4	 A photograph of a small, L-shaped metal component with several circular holes, resting on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10mm and 100mm marks.
Solder Board-Component View 5	 A photograph of a larger electronic assembly, including a circuit board, a battery, and a motor, resting on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the assembly positioned between the 10mm and 100mm marks.

Solder Board-Component View 6	 A photograph of a small, rectangular electronic component, likely a camera module, mounted on a blue solder mask. The component features a clear lens, a red and green LED, and a small red button. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the component's width measured against the horizontal scale.
Solder Board-Component View 7	 A photograph of the same electronic component from a different angle, showing the underside. The component is mounted on a blue solder mask. It features a clear lens, a red and green LED, and a small red button. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the component's width measured against the horizontal scale.
