OWNER'S MANUAL

DS18.COM

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC's (FEDERAL COMMUNICATIONS COMMISSION) is hereby advising you that this device complies with the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment generates, uses and radiates radio-frequency energy and, if not installed and used properly, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio communications, which can be determined by turning the equipment off and on, the user is encouraged to be advised the following by one or more of the following means:

- Review the instructions for the equipment.
- Review the equipment's location and the equipment's orientation.
- Consider the equipment's use and the equipment's location and the equipment's orientation.
- Consider the equipment's use and the equipment's location and the equipment's orientation.

This device is not intended to be used in conjunction with any other equipment.

WARNING: READ INSTRUCTIONS

This device is not intended to be used in conjunction with any other equipment.
