Android

Quick Pairing

1

For first use, remove the insulation tab from the battery compartment. The device will power on automatically.(If needed, press the top power button once to turn on manually.)

2

Open the Meatmeet App. Ensure your Meatmeet Pro 2026 is powered on.Tap the "+" button and wait for the app to search for and connect to "Meatmeet Pro 2026".

How to Use the Probe

• Insert the probe into the meat until the safety notch is fully covered by the food. Do NOT pierce through the meat.

• Do not expose the probe to temperatures exceeding 221°F (105°C).

Device Controls

• Turn On: Press the power button once

• Turn Off: Press and hold the power button for 2 seconds

Indicator Light Status

• LED flashes twice continuously: Probe, base, and phone are all disconnected

• LED flashes once: Probe is disconnected from base OR base is disconnected from phone

• LED is solid on: Probe is connected to base AND base is connected to phone

▼ FCC Statement (United States)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference.(2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and uses radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

▼ FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

Probe FCC ID: 2AYOT-TEMP02C
Booster FCC ID: 2AYOT-BOX02C

▼ IC Radiation Exposure Statement

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

Cet équipement respecte les limites d'exposition aux rayonnements de la norme RSS-102 établies pour un environnement non contrôlé.

Probe IC Number: 26903-METEMP02C
Booster IC Number: 26903-MEBX02C

▼ Disposal & Recycling

EN

This electronic appliance and its batteries should not be disposed of with normal household waste. Dispose of the unit and batteries at an approved electronic waste recycling facility. Please observe local rules and regulations. Contact your local council for more information.

IMPORTANT SAFETY INSTRUCTIONS

a. Food Safety:

This probe is made of food-grade 304 stainless steel and is intended for food temperature measurement only. Do not use it for non-food purposes.

b. Temperature Limit:

Do not expose the probe to temperatures exceeding 221°F (105°C). Do not leave the probe in ovens, grills, or microwaves during cooking.

c. Battery Safety:

- Use only 1.5V AAA alkaline batteries. Do not use rechargeable batteries or mix different battery types.
- Remove batteries if the device will not be used for more than 3 months.
- Do not dispose of batteries in fire, water, or household waste.

d. Electrical Safety:

Do not immerse the base unit in water or any liquid. Clean only with damp cloth.

This device complies with Innovation, Science, and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
