

Specifications

Product	Tap Light
Model	ST20TD
Dimension	86x46x20mm(3.39x2.13x0.77 in.)
Input	5V~500mA
Battery Capacity	500mAh
Power	0.3W

Notes

Please read this instruction manual carefully before using the product and follow the instructions accordingly.

1. Please ensure the adapter that you're using is certified, meets standard requirements, and is compatible with the product. Please avoid using or leaving the product in direct sunlight or high temperatures for prolonged periods.

2. Devices must be placed right side up for charging and stability.

3. Operating temperature: 0~40°C.

4. Before discarding the product, detach the case with the appropriate tool and remove the lithium-ion battery inside. Before removal, ensure that the product is powered off. Please dispose of battery in a safe manner.

5. Please do not place the product on an inclined surface of 6° or more.

FCC Statement

This equipment generates, uses and can radiate radio frequency energy and; if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

IC warning

This device contains licence-exempt transmitter(s) / receiver(s) that comply with Innovation Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1) this device must not cause interference and

2) this device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure (Only BT): This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment. To maintain compliance with IC's RF Exposure guidelines, this device and its antenna(s) must not be co-located or operated in conjunction with any other antenna or transmitter.

Radiation Exposure (Only WPT): This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment. To maintain compliance with IC's RF Exposure guidelines, this device and its antenna(s) must not be co-located or operated in conjunction with any other antenna or transmitter.

Declaration de l'ISED Canada :

Cet appareil contient des émetteur(s) / récepteur(s) sans licence / conformes à l'Innovation/RSI exemptes de licence de Sciences et Développement économique Canada. L'opération est sous réserve des deux conditions suivantes :

1) cet appareil ne peut pas causer d'interférences et,

2) cet appareil doit accepter toute interférence, y compris peut provoquer le fonctionnement indésirable de l'appareil.

Exposure aux rayonnements (Only BT) : Cet équipement est conforme aux rayonnements du Canada limites d'exposition pour un environnement incontrôlé. Pour maintenir le respect des guides d'exposition RF d'IC, l'équipement doit être installé et actionné avec une distance minimale de 10cm le radiateur de votre corps. Cet appareil et ses antennes ne doivent pas être co-localisés ou en opération en conjonction avec toute autre antenne ou émetteur.

Exposition aux rayonnements (Only WPT) : Cet équipement est conforme aux rayonnements du Canada limites d'exposition pour un environnement incontrôlé. Pour maintenir le respect des guides d'exposition RF d'IC, l'équipement doit être installé et actionné avec une distance minimale de 10cm le radiateur de votre corps. Cet appareil et ses antennes ne doivent pas être co-localisés ou en opération en conjonction avec toute autre antenne ou émetteur.

Wireless Charger

1

2

3

4

5

6

7

1. Place a phone that supports wireless charging in the wireless charging area as shown in the above image. If the indicator light (M) flashes slowly, it indicates that the phone is charging.

2. Place the Portable Speaker and Tap Light on either magnetic charging dock to charge the devices.

3. All three indicator lights indicate the charging status. During charging, the corresponding indicator light will flash slowly. The light stops flashing and remains on when the device is fully charged.

If the phone is not charging normally, the indicator light (M) will start flashing rapidly. To ensure :

1. The back of your phone should not have any metal, pop sockets, or credit cards.

How to use

1. Put the phone in the corner of the charging surface (this sets the charging coil in your phone line up with the one inside the wireless charger).

2. Phone cases should be no thicker than 5 mm for effective charging.

Specifications

Product	Wireless Charger
Model	ST20TA
Dimension	201x170x12mm(7.9x6.7x0.47 in.)
Input	5V~2A
Output	3W MAX
Input	5V~2A
Output	10W MAX

The charging port is the universal type C port.

Compatible Devices

Apple: iPhone 12/12 Pro/12 Pro Max/11/11 Pro/11 Pro Max/ XS/XS Max/XR/XRP

Huawei: Mate 40 Pro/Mate 30 Pro/Mate RS Pro/Mate 20 Pro/ P40 Pro/P30 Pro

Honor: V50 Pro

Xiaomi: Mi 11/Mi 10/Mi Mix 3S/Mi 2S

OPPO: Ace 2

Samsung: S21/S20/S20 FE/S20 5G/S21 Neo/S20 Neo 10

This product supports quick wireless charging and short-range wireless power transfer via magnetic induction. It is compatible with Qi-enabled devices. When used with a 5V adapter, the maximum output is 3W. When used with an adapter that is 5V/2.0A or above, the maximum output is 10W. It can detect foreign metallic objects.

Portable Speaker

1

2

3

1. Button 2. Speaker Grille 3. Charging Contact

How to use

Press the button and hold for 3 seconds. The speaker will emit a notification sound to indicate that it is on. The flashing indicator light indicates that the speaker is searching for a device for pairing. Turn on Bluetooth on your phone and search for "EZVALO S12" under available devices. Select "EZVALO S12" to pair automatically. Once paired, the speaker will emit a notification sound. The indicator light will remain on as long as the device is connected.

Low Battery Alert

You will get a notification alert when the battery is low. Please place the speaker on the wireless charging pad's magnetic charging dock for prompt charging.

Charging

Place the speaker on the charging pad's magnetic charging dock. If the corresponding indicator light on the charger flashes slowly, it indicates that the speaker is charging. It stops flashing and remains on when the speaker is fully charged.

Specifications

Product	Portable Speaker
Model	S120TB
Dimension	70x70x21mm(2.76x2.76x0.83 in.)

Tap Light

1

2

3

1. Touch Switch 2. Lampshade 3. Charging Contact

How to use

Turning On/Off

Touch the top of the Tap Light, where the touch switch is located. The Tap Light will light up gradually. Touch again to turn it off. The light will dim slowly until it is completely off. (Please do not hit the Tap Light repeatedly.)

Charging

Please use Tap Light on the charging pad's magnetic charging dock. If the corresponding indicator light on the charger flashes slowly, it indicates that the Tap Light is charging. It stops flashing and remains on when the Tap Light is fully charged.
