| <p><b>Solder<br/>Board-Component<br/>View 2</b></p> |  A photograph of a green printed circuit board (PCB) component, identified as a solder board-component, placed on a blue textured surface. The component is rectangular with several circular holes and a series of gold-plated pins along one edge. It is positioned between two metal rulers for scale. The ruler on the left shows centimeters from 1 to 8, and the ruler on the bottom shows millimeters from 0 to 8. The component's length is approximately 6 cm. A white label on the component reads "BAF003116 VER:01" and "20010105M".                                                                                                                                                        |
| <p><b>Antenna View</b></p>                          | <p>2.4G Antenna</p>  A photograph of the same green PCB component, viewed from the opposite side (Antenna View). This view shows various electronic components, including a large black integrated circuit (IC) and several smaller components. A red rectangular box highlights a specific area on the right side of the component, which is identified as the 2.4G antenna. A red line points from the text "2.4G Antenna" to this box. The component is placed on a blue textured surface, and two metal rulers are used for scale. The ruler on the left shows centimeters from 1 to 9, and the ruler on the bottom shows millimeters from 0 to 10. The component's length is approximately 6 cm. |
