Put the hex key in a safe place for future use.

Rangée la clé hexagonale dans un endroit sûr pour une utilisation ultérieure.

Bewahren Sie den Inbusschlüssel für die zukünftige Verwendung an einem sicheren Ort auf.

Riporre la chiave esagonale in un luogo sicuro per un uso futuro.

Guarde la llave hexagonal en un lugar seguro para usarla en el futuro.

육각 렌치는 나중에 사용할 수 있도록 안전한 곳에 보관하세요.
六角レンチは、将来使用するために安全な場所に保管してください。
將六角扳手放在安全的地方以備將來使用。

To use the Apple Find My app to locate this item, the latest version of iOS, iPadOS, or macOS is recommended.

The Find Items app on Apple Watch requires the latest version of watchOS.

Power button

1) On/off: Press and hold the button for 3 seconds to turn on the device with 6 beeps; Triple-click the button within 2 seconds to turn off the device, a confirmation chime will sound and the light will flash three times.

2) The device is on if there are 3 beeps after double-clicking the button, otherwise it is off.

Pairing and time-out

The device is in pairing mode when turned on. Hold near device and open the Apple Find My app and follow onscreen instructions for pairing. The device will enter sleeping mode after 10 minutes without pairing. Click the power button again to pair.

Lost Mode

A message will be sent to your phone (time varies) when the device is disconnected. If your item ever goes missing, you can put it in Lost Mode to display a message and contact information to anyone who might find it.

Low battery

A low-battery message will be sent to your phone when the device is connected.

USB-C charging

Standard charging time: about 2 hours(5V, DC/0.14A). Built-in over-charge/discharge protection.

Charging indicator

Constant green light: charging;
Green light off: fully charged.

Factory reset

Turn on the device, double click the power button, then press and hold the power button for 5 seconds. You will hear beeps during the process and a confirmation chime will sound when the reset is finished.

Warranty policy

1. Two years warranty for the products to be free of defects in material and workmanship from the day of purchase under normal use.
2. One-year warranty for accessories and battery.
3. Limited lifetime warranty support.
4. Contact the seller or us for warranty service.

Warranty exclusions

1. Normal wear/tear and normal battery deterioration.
2. Improper use and maintenance, unauthorized modifications or alterations.
3. No sales receipt or proof of the purchase.

Use of the Works with Apple badge means that a product has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet Apple Find My network product specifications and requirements. Apple is not responsible for the operation of this device or use of this product or its compliance with safety and regulatory standards.

FCC Warning

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation.
- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
