

A diagram showing a zigzag path. The path starts at a vertex labeled 'front', goes up to a peak, then down to a valley labeled 'b1', up to a peak labeled 'f1', down to a valley labeled 'b2', up to a peak labeled 'f2', down to a valley labeled 'b3', up to a peak labeled 'f3', down to a valley labeled 'b4', up to a peak labeled 'f4', down to a valley labeled 'b5', up to a peak labeled 'f5', down to a valley labeled 'b6', up to a peak labeled 'f6', and finally down to a vertex labeled 'back'. The segments between vertices are labeled b1 through b6, and the peaks are labeled f1 through f6.
