

Instructions

Product Model : C4SP000D00

This car mounted wireless terminal product and manual are designed and developed by Neusoft Group (Dalian) Co., Ltd.

This product manual contains important information and warning instructions for the use of the entertainment system. Other information related to your own and passenger safety is not within the scope of this manual.

When the vehicle is parked unused for a long time, the entertainment system will take slightly longer to restart than usual.

The pictures in this manual are schematic diagrams for reference only. The details are subject to the actual product.

FCC Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Instructions for use

Hello! Welcome to use Changan car mounted wireless terminal. This product provides convenience for your travel and entertainment.

1. When driving, please do not operate this navigation system to avoid affecting driving safety due to lack of concentration。
2. When driving on rough roads, severe bumps may cause sound jumps.
3. The navigation data provided by the car entertainment navigation system is for reference only, and drivers must comply with local traffic rules.
4. If the vehicle is parked in direct sunlight or cold places for too long with the engine turned off, this system may malfunction. Once the temperature inside the car returns to the normal range, normal functions can be restored.
5. If the car entertainment system malfunctions (power failure, no image, no sound) or is in an abnormal state (with foreign objects, water ingress, smoke, or odor inside), do not open the chassis, disassemble the body, or lubricate the rotating parts without authorization. The power should be immediately cut off and the sales service provider should be contacted for maintenance.

Pay attention to:

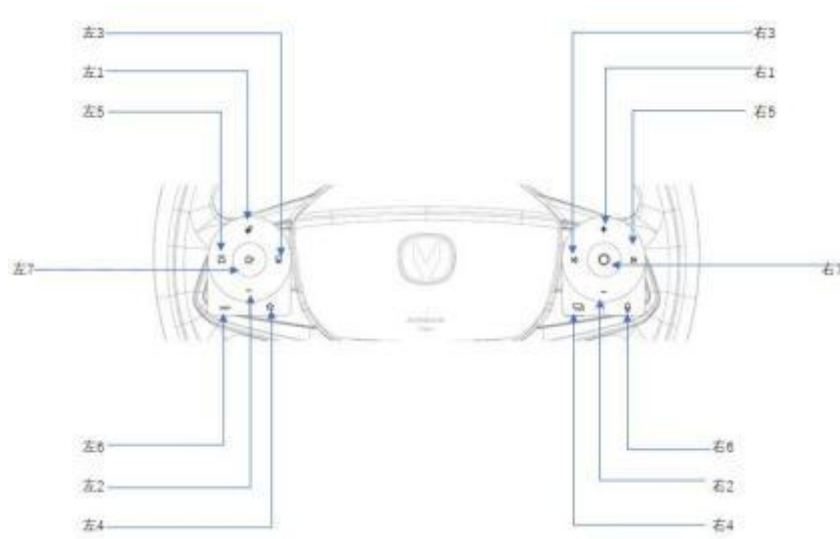

Long term use after engine shutdown can cause battery depletion.

If the product is disassembled or modified arbitrarily, it cannot enjoy free warranty.

Control method
