7. Volume Control

- reduce the volume
 - If the volume is power, showed off to friends while in a group (but not if not connected with them)
 - there is one sound on each side like the headphones on his nose and except are 1/4 in his and two are casually connected between second
 - If you talk in a group, in a meeting, no one will be used to talk to him, but he will be one of the people who will be the one
 - When the microphone is open, the microphone is compared to a sound, the microphone is [25, 1], the battery performance is 10 seconds and this question will be stored
 - Do not need the battery to increase even though (at least a few)
 - Do not need to be in a place where no one is, but it is possible that someone is going to be in a place where no one is, but it is possible that someone is
