4	Projector	PCS	1

Diagram illustrating the back of the HP Z800 G1 Mini PC, showing the following ports and features:

- HDMI
- DC-IN
- USB2.0
- Power Key
- TOF Focus

Set up network

Before initial using, go to "setting" - "network Setting", choose the WIFI you want to connect and input password it may need.

The screenshot shows the Windows 8 Start screen with a light blue background. On the left, there is a vertical list of system function categories: "Device Function", "System Function", and "System Set". To the right of this list are two rows of colored tiles, each with an icon and a label. The first row contains four tiles: "Wireless" (blue with a Wi-Fi icon), "Trapezoid" (orange with a trapezoid icon), "Brightne" (green with a sun icon), and "Project" (green with a four-way arrow icon). The second row contains four tiles: "Set wallp" (yellow with a picture icon), "Sound" (green with a speaker icon), "Time zo" (blue with a large 'A' icon), "Version 1" (red with a gear icon), and "Restore 1" (blue with a circular arrow icon). At the bottom left, there is a small navigation bar with icons for "Start", "Task View", "App Store", and "Settings".

(Customer name) _____

(Telephone No.) _____

(Address) _____

(Model No.) _____

(Remark) _____

(1) Purchase Date: _____

(2) Receipt Date: _____

(3) Serial Number on Projector Bottom: _____

(4) What help do you need? _____

(5) Manufacturer Action: _____

Please use the original charger and charging cable that are standard with this product for charging. After connecting the charging cable, the indicator light on the top of the shutdown state will flash. The charging time will be relatively slow when the machine is working, and the charging time of the rechargeable battery is about 6 hours in the off state.

Thank you!

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
