Subject: Request for Confidential Treatment - THIS IS A POST-GRANT CONFIDENTIALITY REQUEST

FCC ID: 2AZD9041010001

To Whom It May Concern:

On behalf of Wiwynn Corp. I write to request the post-grant removal and permanent (long term) confidential treatment of the user manual and internal photographs, each of which are attached as exhibits to the equipment authorization application for FCC ID: 2AZD9041010001.

These materials contain trade secrets including sensitive technical and design information about our device that are not publicly available, and we would only share on a need-to-know basis, subject to non-disclosure agreements. The Mutual Nondisclosure Agreement between Wiwynn and the customer is in Appendix 1 for reference. The TCB is authorized to supporting NDA exhibits justifying confidentiality that will be uploaded to filling. However, this exhibit may be held confidential. We design and manufacture the equipment at issue in this request solely for one customer and do not sell the equipment to any other entities or persons. If this information is disclosed, our competitors would gain an unfair commercial advantage over us by learning about our product design and development processes. This in turn would significantly harm our ability to compete in a highly competitive market space. In accordance with KDB 726920, we are therefore requesting that the FCC follow the "exceptional circumstances" procedure to grant permanent (long term) confidential treatment of the user manual and internal photos and remove these materials from the FCC's public website. We acknowledge that the FCC has no obligation to remove confidential materials posted on third-party websites.

An inquiry (Tracking Number 190424) was submitted to FCC for the same purpose and a response from FCC was received. The response e-mail is in Appendix 2.

Please let me know if you have any questions or concerns. Thank you in advance for your time and support of our request.

Sincerely,

 May. 18, 2022
