

Model Difference Declaration

Product Name: Digital Photo Frame

Model(s):

AF130, AF13X-YYYY (X is an Arabic numeral, representing different sales channels and regions, YYYY are Latin alphabets, representing different colors of product housing enclosure)

FCC ID: 2AZGI-AF130

Model difference

AF13X-YYYY have the same technical construction including circuit diagram, PCB Layout, components and component layout, all electrical construction and mechanical with AF130

The difference lies only the model name to distinguish the sales channels and regions, different colors of product housing enclosure

In addition, the product has two memory versions. Please refer to the following information for specific details

Item	Component type	Aura Part Number	Description	Manufacturer	Mfr Part Number	PCB Footprint
First source	Memory	E.07.021007005	MemoryChip.LPDDR4.1GB. K4F8E3S4HD-MGCL. FBGA200	Samsung	K4F8E3S4HD-MGCL	BGA200P65 80B1000 1500H90
Second source	Memory	E.07.021011002	MemoryChip,LPDDR4,1GB, NT6AN256T32AV-J2, FBGA200	Nanya	NT6AN256T32AV-J2	BGA200P65 80B1000 1500H90

However, the difference does not affect the radio/wireless function.

Yours sincerely,

Scott Milstein
