Warning & Info

For USA:

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been tested for use against the body with 10mm, and extremity with 0mm separation in Specific Absorption Rate (SAR) testing.

Users must follow the specific operating instructions for satisfying RF exposure compliance.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

For additional FCC information, please visit auraframes.com/fcc

For Canada:

This device contains license-exempt transmitters and receivers that comply with the Innovation, Science, and Economic Development Canada license-exempt RSS standards.

Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.
