INTRODUCTION</div><p>The water detector adopts advanced wireless transmission technology. When the water flows over the top of the detector or enters, or when the water drops or overflows in completely covered by water, the detector will immediately alarm and send a wireless signal to the connected alarm, the alarm and the app will alert the user at the same time, so that they can take appropriate measures in time to reduce losses. Ideal for villas, clubs, leisure centers, hotels, guesthouses, families, office buildings, meeting rooms and other occasions.</p><div><div>2. WHAT'S IN THE BOX</div><div><div><div>Indicator<br/>Water Drop Detector/Sensor<br/>Blower<br/>TEST Button</div></div><div><div>Water Detector<br/>Alarm<br/>Set Button<br/>Main Button<br/>Volume<br/>Connection Button</div></div></div></div></div>                                                                                                                                  | <div><div>3. BUTTON INSTRUCTIONS</div><div><div>Water Detector</div><div>TEST Button</div><p>Press the button as prompted to start pairing while connecting to the alarm.</p><div><div>Alarm</div><div>【01】 Press the button to choose a preferred mode (Alarm/Alarm/Alarm).</div><div>【02】 Press the button to select music in sequence (SD programs are optional). The device will play the selected music.</div><div>Hold the button for 3 seconds to change the direction of the music selection.</div><div>【03】 Press the button to adjust the volume (5 levels, including muted).</div><div>Hold the button for 3 seconds to enter into the Wi-Fi configuration state.</div><div>Hold each time the alarm is powered on, the volume will be automatically set to the maximum level.</div></div><div><div>4. OPERATING INSTRUCTIONS</div><div><div>4.1 How to turn on/off the water detector?</div><p>Insert 2 AAA batteries, the device will be turned on automatically.</p><div><div>4.2 How to turn on the alarm?</div><p>Plug in the alarm, the alarm will be turned on and keep a short sound.</p></div></div></div></div></div> | <div><div>4.3 Placement</div><p>Place the water detector in areas where water leaks or overflows may occur to keep your home free of flooding.</p><div><div><div>Water Detector Alarm</div></div><div><div>Water Drop Alarm</div></div></div><p>Note: The water leak detector cannot be installed vertically.</p><div></div></div> |
| <div><div>4.4 Trigger the alarm</div><p>Place the water detector on a stable surface, when any 2 sensors in parallel lines of the bottom detect water, the detector and the alarm will sound. When 2 sensors in diagonal lines detect water, the device will not alarm.</p><div><div>4.5 Cancel the alarm</div><p>4.5.1 Press the "TEST" button to cancel the alarm of the water detector, press any button on the alarm to stop the sound of the alarm.</p><p>4.5.2 The alarm will sound every 15 seconds in 24 hours if the sensors are continuously immersed in water. 24 hours later, the alarm will stop.</p><p>4.5.3 Open the app, click alarm to stop all the alarms (See 5.3 for more details).</p><div><div>4.6 Restore to factory settings</div><p>Plug in the alarm and hold "0" and "1" at the same time to restore the factory settings, the alarm will keep on to indicate that the reset is done. After the reset, the alarm will not disconnect from the phone or delete the connected device, the phone will be restored to the first one, and the volume will be set to maximum by default.</p></div><div><div>5. Wi-Fi CONNECTION &amp; APP CONTROL</div><div><div>5.1 How to connect the alarm to a Wi-Fi network?</div><p>5.1.1 Download the app<br/>Search the InkBirdSmart app from Google Play or App Store to get it for free, or you can scan the QR codes below to download it directly.</p></div></div></div></div> | <div><div><div>iOS</div></div><div><div>Android</div></div></div> <div><div>5.1.2 Registration</div><p>1. Open the InkBirdSmart app, select your Country/Region, enter your phone number or e-mail, then a verification code will be sent to you.</p><p>2. Enter the verification code to confirm your identity, then the registration is done.</p><p>Note: Registration is accurate in necessary before using the app for the first time.</p><div><div>5.1.3 Configuration</div><p>1. Open the app.</p><p>2. Register or log in before using the app.</p><p>3. Click Add Device at Home page.</p><p>4. Select any one of the icons on the "Add Manually" page.</p><p>5. #### FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### RF Exposure Information for water detector

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

#### Radiation Exposure Statement for alarm

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
