Legal:
Nimble products are meant for use only with the appropriate, compatible devices. Manufacturer is not responsible for any damages to any device incurred through the use of this product. Manufacturer will not be responsible or liable in any way to the user, or to any third party, for any damages the user or a third party may incur as a result of any intended or unintended use, or misuse of this product with other devices or accessories other than functions for which this product is designed. In using this product, you agree to indemnify the Manufacturer for any resulting damages or injuries to you or any third parties. Nimble is a trademark of Nimble for Good PBC. USB-C is a trademark of USB Implementers Forum. All rights reserved.

FCC Statement:
1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
