

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the white plastic housing of the EUT (Electronic Under Test) with the internal blue printed circuit board (PCB) assembly. The PCB is populated with various components, including a green module labeled "2021.5.28 DD7006-RF V1.0". The assembly is placed on a blue textured surface next to a black ruler with white markings for scale.
Solder Board-Component View 1	 A close-up photograph of the blue PCB assembly, focusing on the soldered components. The green module "2021.5.28 DD7006-RF V1.0" is prominent. Other components like a black integrated circuit and various passive components are visible. The assembly is placed on a blue textured surface next to a black ruler with white markings for scale.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled '4', resting on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component has various electronic components, including a large black chip, several smaller components, and a series of pins along one edge. The ruler markings are visible, showing the component's size relative to the scale.
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled '5', resting on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component has a large black chip, several smaller components, and a series of pins along one edge. The ruler markings are visible, showing the component's size relative to the scale.
