

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing. The top half of the black plastic housing is open, revealing a green printed circuit board (PCB) with several white components. The bottom half of the housing is closed. A black ruler with white markings is placed horizontally below the housing for scale. The background is a light blue textured surface.
EUT Housing and Board View 2	 A photograph showing the internal components of the EUT housing from a different angle. The top half of the black plastic housing is open, revealing a green printed circuit board (PCB) with several white components. The bottom half of the housing is closed. A black ruler with white markings is placed horizontally below the housing for scale. The background is a light blue textured surface.

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The board is rectangular and features several circular solder pads arranged in a grid. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the board's length being approximately 100 mm and its width around 20 mm. The board has a small white label with the text 'S71000A, Y130-220221'.
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the underside of the board, revealing various electronic components including a central integrated circuit (IC) and several smaller surface-mounted components. The board is placed on the same blue textured surface next to the same black ruler. The ruler shows dimensions in millimeters, with the board's length being approximately 100 mm and its width around 20 mm.
