

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the EUT housing and board from a side perspective. The black cylindrical housing is open, revealing the green printed circuit board (PCB) inside. A small antenna is visible on the top of the housing. A black L-shaped ruler is placed next to the device for scale, with markings in millimeters and centimeters. The background is a blue textured surface.
EUT Housing and Board View 2	 A photograph showing the EUT housing and board from a top-down perspective. The black cylindrical housing is open, revealing the green printed circuit board (PCB) inside. The PCB has a circular gold-colored pad in the center. A black L-shaped ruler is placed next to the device for scale, with markings in millimeters and centimeters. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph showing a green circular printed circuit board (PCB) and a small, round, gold-colored component. The PCB is positioned on the left, and the component is on the right. They are connected by a thin wire. The PCB has text printed on it: "ALTA", "33-21", "Rev. 2.1", "RCS", "Design by Zero Byte LLC", and "Battery Charge Control". The component has "MS" and "98030101309" printed on it. A black ruler with white markings is visible in the background, showing measurements in millimeters.
Solder Board-Component View 3	 A photograph showing a green circular printed circuit board (PCB) with various electronic components. The PCB is positioned on the left, and a black ruler with white markings is visible in the background, showing measurements in millimeters.
