

Mobile/RFID Reader (IRD2M)

Installation Guide

Version 1.0.0

Safety instructions

Observe the following instructions to use the product safely and prevent any risk of injury or property damage.

Warning

Noncompliance of instructions could lead to serious injury or death.

Installation

Do not install the product in a place with direct sunlight, moisture, dust, or soot. A fire or electric shock may occur.

Do not install the product in a place with heat from an electric heater. A fire or electric shock may occur due to overheating.

Install the product in a dry place. Otherwise, a product damage or electric shock may occur due to moisture.

The user should not install or repair the product independently. If the product has been damaged due to independent installation or repair of the product by the user, free A/S service will not be provided.

Caution

Noncompliance of instructions could lead to minor injury or product damage.

Operation

Do not allow liquids such as water, beverages, or chemicals get into the product. A fire, electric shock, or product damage may occur.

Installation

Do not install the power supply cable in a place where people pass by. Product damage or physical injury may occur.

Do not install the product near a highly magnetic object such as a magnet, TV, (especially CRT) monitor, or speaker. A product failure may occur.

If installing the product outside where the product is completely exposed, it is recommended to install the product together with the enclosure.

Keep the minimum separation distances between the devices when install multiple devices. Otherwise, RF performance is affected to the other device, the devices may not operate normally

- **Components**

IRD2M reader 1 ea Wall mount bracket

1 ea

Wall fixing screw 2 ea

Bracket fixing screw 1ea

- IRD2M Reader

- Wall mount bracket

- Wall fixing screw

- Bracket fixing screw

• Specification

IRD2M reader supports RFID protocol of 13.56Mhz RFID : ISO/IEC 15693, ISO/IEC 14443 A/MIFARE , ISO/IEC 14443 B , Felica, ISO/IEC 18092(NFC IP-1) and Bluetooth and NFC protocol for mobile communication.

- Mobile ID (Bluetooth, NFC) reading
- Mobile ID Manger App (Reader setting app) communication
- ISO 14443 A/B, ISO 15693 RFID card reading
- 26, 32, 34, 37 bit Wiegand data output
- ICON LED indicator of 4 external input signal (ex. access granted, access denied, door open, door locked)
- 3 Color LED indicator (RED, GREEN, BLUE)
- Buzzer Control
- Tamper Alarm
- External input signal output in wiegand

Base Part Number	Input Voltage (VDC)	Current			Operation Temperature	Cable Length
		Standby AVG	Max AVG	Peak		
IRD2M	12V	250mA	300mA	400mA	-20°C ~50°C	Wiegand : 22 AWG (150m) 24 AWG (90m) RS-485 : 4 AWG (1,200m) 24 AWG (500m)

• Name and function

IRD2M slim type reader

- Connection

PIN		English	한국어
		Color	색상
1	PWR +VDC	Red	빨간색
2	PWR GND	Black	검은색
3	WG D0	Green	초록색
4	WGD1	White	흰색
5	485 TRXA	Yellow(Gray Stripe)	노란색 (회색띠)
6	485 TRXB	White (Gray stripe)	흰색 (회색띠)
7	RED LED	Brown	갈색
8	GRN LED	Orange	주황색
9	BUZZER	Yellow	노란색
10	TAMPER	Violet	보라색
11	EXT IN1	SKY	하늘색 ✓
12	EXT IN2	Blue	파랑색 ✗
13	EXT IN3	Pink	분홍색 
14	EXT IN4	Gray	회색 

- **Installation**

1. Select a proper place to install and put the wall mount bracket. Fix the bracket with wall fixing screw. Try to keep minimum distance of 500mm between readers.

IRD2M slim type reader

2. Make wire connections referring connection table.
3. Put the reader on the bracket fixed on the wall.

IRD2M slim type reader

4. Fix the reader to the bracket with bracket screw

FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC compliance information

FCC Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense. Modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment under FCC rules.

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC ID : 2AZS5IRD2M

EU Declaration of Conformity (CE)

This product is CE marked according to the provisions of the Radio Equipment Directive (RED) 2014/53/EU. Hereby, ISTCONTROL declares that this product is in compliance with the essential requirements and other relevant provisions of Radio Equipment

Directive (RED) 2014/53/EU.

- Bluetooth Transmit Power: 8.65 dBm
- Bluetooth Frequency: 2402~2480 MHz
- NFC Frequency: 13.56 MHz
- RFID Frequency: 13.56 MHz
