1 Revision History

Revision Number	Change Description	Revision Date	Author
R1.0	Initial Release	1/27/26	BWL
R1.1	Minor formatting edits, box artwork update	2/19/26	BWL
R1.2	Updated regulatory statements	3/6/26	BWL

2 Labeling Information

Due to the small size of the device and restraints in the manufacturing process, the e-labeling method will be used for this device. The device is only able to be used in conjunction with a mobile device (i.e. smartphone or tablet) that can display the regulatory information digitally.

Access to the required information on the e-label:

1. Users are able to access the information in no more than three steps in a device's menu.
The actual steps are:

- Tap the three bar menu in the top left
- Tap "Support"
- Tap "Legal and Regulatory"

2. The information is stored on the device, no special accessories or supplemental plug-ins are required to access the information. The information is secure and un-editable.

Yes, the data is stored on the device and is not able to be edited by the user.

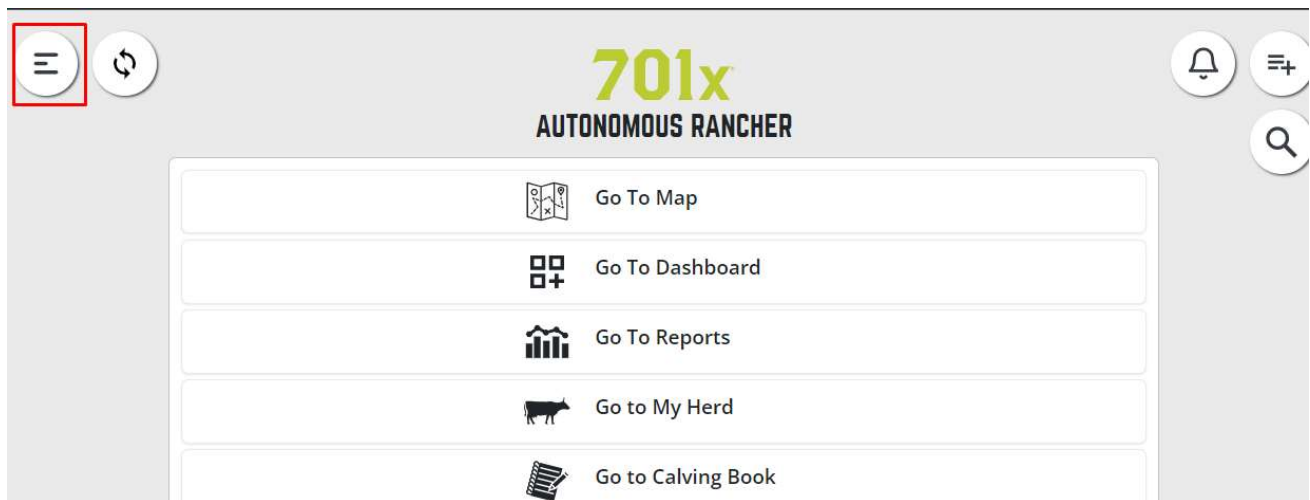

3. Readability of Regulatory Information

The FCC/ISED regulatory information is formatted to be the same size font as all other information in the user application.

4. Packaging Labeling

The packaging for the device contains the printed FCC ID, IC ID, and HVIN of the device as well as instructions pointing to the e-labeling of the device for further information.

3 E-Labeling

The screenshot displays the 701x AUTONOMOUS RANCHER dashboard. The left sidebar contains a menu with the following items: Home, Recent, Map, Dashboard, Reports, Admin Tools, Folders, Working Cattle, Livestock, Breeding, Ranch Tools, Tags, Marketplace, Account, Support, Help / Faq, Patch Notes, and Legal and Regulatory. The 'Support' item is highlighted with a red box. The main content area shows the '701x AUTONOMOUS RANCHER' header, a navigation bar with links to Go To Map, Go To Dashboard, Go To Reports, Go to My Herd, and Go to Calving Book, and a 'Subscription: Commercial' section indicating 0 of 1000 tags used. A 'Report' section shows 0 cattle. A tip at the bottom suggests creating a folder for animal actions.

LEGAL AND REGULATORY

FCC Regulatory Compliance Information

FCC ID: 2AZT3-701XCT6

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate this equipment.

This product meets the applicable FCC Part 15 rules. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

RF Exposure Information (MPE)

This device has been tested and meets applicable limits for Radio Frequency (RF) exposure. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.

xTlite

IC Regulatory Information

IC: 34341-701XCT6

HVIN: ctagv6

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development

Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

- 1.This device may not cause interference.
- 2.This device must accept any interference, including interference that may cause undesired operation of the device.

RF Exposure Information (MPE)

This device has been tested and meets applicable limits for Radio Frequency (RF) exposure. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.

Cet appareil contient un ou des émetteurs/récepteurs exemptés de licence conformes aux normes RSS exemptées de licence

d'Innovation, Sciences et Développement économique Canada. Son fonctionnement est soumis aux deux conditions suivantes :

- 1.cet appareil ne doit pas causer d'interférences, et il doit accepter toute interférence
- 2.y compris celle susceptible d'entraîner un fonctionnement indésirable de l'appareil.

Informations d'exposition RF (MPE)

Cet appareil a été testé et répond aux limites applicables en matière d'exposition aux radiofréquences (RF). Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.

Packaging Labeling

The cTag_V6 will be shipped in bulk packaging of 10 units each. Each shipping carton will contain references to the FCCID, ICID, and the HVIN.
