3 IN 1 FOLDABLE MAGNETIC WIRELESS CHARGER

User Manual

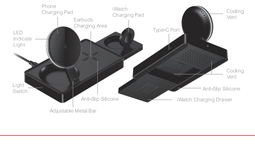

CE FC RoHS

PRODUCT INTRODUCTION

Simple, elegant, golden ratio outline, foldable and portable, wide compatibility with devices, creative iWatch charging drawer, multi-angle adjustable metal bar for view, magnetically charging new iPhone series, charge 3 devices wirelessly and simultaneously with only 1 cable,, this is 3-in 1 foldable magnetic wireless charger that newly designed for your fashion and cool way of charging.

The phone charging pad can magnetically hold phone vertically and horizontally in order to have a great view, so this part is mainly for iPhone 12 series and above(if support MagSafe charging), And for other Qi-enabled phones like iPhone 8 and Galaxy S21, it supports flat charging only. For iWatch charging pad, it's only for Apple Watch S2 to S6 and SE while earbuds charging area is not only for AirPods 2 and AirPods Pro but also for popular android TWS earbuds like Galaxy buds.

You can enjoy your charging experience safely and effectively with protection of over-voltage,over-current,over-temperature and FOD function.

HOW TO CHARGE

1,Plug in the Type-C cable to power on the wireless charger, the white light will be on,

2,Put your phone on the phone charging pad, it will be automatically charged and the blue light will breath, if it is magnetically attached to the pad, you can adjust the height and angle of view by folding and stretching the adjustable metal bar if you want.,

3,To charge your iWatch, pull out the iWatch charging drawer below the right of the whole charger first, then put your iWatch to charge on the iWatch charging pad, you can turn up the pad to charge horizontally, especially for single round watch strap.

4,Place your earbuds case on the center of the earbuds charging area to make sure the charging light of the earbuds case is on, then charging is getting started.

2,Smart Watch:

Fully compatible with Apple: Watch S2/S3/S4/S5/S6/SE/S7,

3,Earbuds:

Most Galaxy, Galaxy Buds+/Buds/Buds Pro/Buds Live/Buds2,

Apple: AirPods 2/ AirPods 3/ AirPods Pro,

Huawei Freebuds3i/3,

And more TWS(others Qi enable earbuds).

PRODUCT SPECIFICATION

Input: 9V/2A, 9V/2.4 A, 12V/2A

Input socket: Type-C

Conversion Rate(Phone): ≥73%

Product Size: 145.5(W)X85(H)X21.5(H)mm

Phone Output: 15W/10W/7.5W/5W

Watch Output: 2.5W

Earbuds Output: 3.0W

PACKING LIST

Wireless Charger*1, Type-C quick charge cable*1, User manual*1

FAQ

1, If you're experiencing interrupted or slow charging, check the following:

(1) The back of your phone should not have any metal, pop sockets, or credit cards.

(2) Put the phone in the center of the charging surface (this lets the charging coil in your phone lineup with the one inside the wireless charger).

(3) The wireless charging coil on Sony phones is located slightly below center.

(4) Phone cases should be no thicker than 5 mm for effective charging.

(5) Check whether the adapter is QC3.0 fast charger.

2, If you're failing to charge your device, please try out the following:

(1) Please restart your cell phone and test with other USB cable.

(2) Please check whether the indicator turns on or not.

(3) The wireless charging coil on Sony phones is located slightly below center.

(4) Phone cases should be no thicker than 5 mm for effective charging.

(5) Check whether the adapter is QC3.0 fast charger.

3, If you're using the recommended wireless charger with the QC3.0 Adapter and have removed any potential charging obstructions, but are still experiencing issues, try this:

(1) Replacing the cable connecting your wireless charger.

(2) Rebooting your phone.

(3) Unplug the adapter and reinsert.

4, Charging is still slow.

The mobile phone itself or the external receiving coil allows the wireless charging current to be different, or the application running consumes a lot of power when the mobile phone is charging, it is recommended to reduce or close the application.

5, The phone is charging intermittently, or the indicator light flashes.

If the charging current is not enough, please use a adapter with sufficient power 9V/2A or 18W above.

6, Charging fever.

It is normal for the receiving coil or transmitter board to generate heat during wireless charging. If the wireless charger is too hot, please take your phone off it, when the wireless charger is cooled down, please charge it again.

7, The charger does not work.

Do not put metal debris or magnetic cards on the charging area, if the product does not work due to overheating, please take off the phone and charge it again when it is cooled down.

8, If there are another problems, please contact our after-sales for solution.

WARNING

1. Avoid using the product at places that are wet, humid or have high temperature.
2. Avoid dropping the product from high places.
3. Do not disassemble the product by yourselves, Please contact us if necessary.
4. Do not clean the product unless the unit is powered off.
5. It is recommended to use 18W or above adapter to charge 3 smart devices at the same time.
