

3-IN-1 WIRELESS CHARGING STATION

USER MANUAL

Model : IJS.234

1 Product Specifications

Input: 9V-3A, 12V-2.5A
Wireless Phone Output: 15W(Max)/10W/7.5W/5W
Wireless iWatch Output: 3W
Wireless Samsung Watch Output: 3W
Wireless Earbuds Output: 5W
Transmission Distance (Phone): $\leq 0.315''$
Conversion Rate: $>75\%$
Product Dimensions: 3.15"(L) x 2.76"(W) x 1.57"(H)
Storage Temperature: 14-104°F
Wireless Charging Temperature: 14-89 °F

2 Product Overview

- | | |
|--|-------------------------------------|
| ① Rotatable magnetic charging port for watch | ⑥ Type-C input port |
| ② Magnetic Wireless charger for phone | ⑦ Earphone charging indicator light |
| ③ Adjustable height | ⑧ Watch charging indicator light |
| ④ Phone stand | ⑨ Phone charging indicator light |
| ⑤ Wireless earphone charger | |

3 Product Setup

1 Pull to adjust the height

2 Rotate the watch charger ⌚ for iWatch, ⌚ for Samsung Watch

3 Unfold the fold-out base for phones without magnetic compatibility

4 Power source should be connected to a wall charger

* For best performance, use a 9V/3A or 12V/2.5A charger.

5 Fold the Charger

4 Product Operation

* For best performance, use a 9V/3A or 12V/2.5A charger.

- 1- Connect the charging cable.
- 2- Unfold the device and adjust the height.
- 3- Place your devices on the charging areas.
- 4- Charging begins automatically.

5 Charging Position Guide

Phones:

Compatible with iPhone 12–17 series, Samsung, Google, and other Android models.

Watches:

Rotate the watch charger to switch between Apple Watch and Samsung Galaxy Watch compatibility. Supports Apple Watch Series 1–11, SE, and Ultra models. Supports all Samsung Galaxy Watch models.

Compatible with Apple, Samsung, and other wireless earphones.

6 Packing List

3-in-1 wireless charger x 1
Type-C fast charging cable x 1
User manual x 1

7 Wireless Charging Precautions

- Confirm your phone supports wireless charging before use.
- Ensure the phone is properly aligned with the charging area.
- Disconnect devices after charging to avoid overheating.
- The charger has automatic protection against metal interference and overheating. If it becomes hot, unplug and allow it to cool before reuse.

8 Safety Precautions

- Confirm your phone supports wireless charging before use.
- Ensure the phone is properly aligned with the charging area.
- Disconnect devices after charging to avoid overheating.
- The charger has automatic protection against metal interference and overheating. If it becomes hot, unplug and allow it to cool before reuse.

Use indoors in a dry environment. Avoid high temperatures, humidity, static electricity, or strong magnetic fields.

- Do not plug or unplug with wet hands.
- Keep out of reach of children.
- Do not use if the product is wet or dirty.
- Do not attempt to open or repair the product yourself

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television, which can be determined by turning the equipment off and on.

FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Compliance:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body.
