

Model: AS12L

Tablet PC Quick Start Guide

NOTICE

- ⚠ Do not strike the device by any hard object.
- ⚠ Stop using in thunderstorm weather.
- ⚠ Keep away from electric or magnetic field.
- ⚠ Don't stain the device by chemicals.
- ⚠ No disassembly to the device.
- ⚠ Keep away from high& freezing temperature dusty or moist environment.
- ⚠ Recommend lower volume to avoid any ear damage.
- ⚠ Do not leave the device inside a car with all windows closed.
- ⚠ Do not update firmware without professional guidance. The manufacturer is not responsible for the device damage caused by a user's private firmware updating.

⚠ Note: Please use the original charger.

1. Main screen

Main screen can be placed on the most commonly used applications, you can also display daily information such as the time, the weather(need third-party applications.), date,etc.

2. FM Radio

With the FM Radio, you can search for radio channels, listen to them, and save them on your Tablet PC.

3. Notification

Notification icons inform you of new messages and events, when you receive a notification, its icon appears in the status bar, along with a summary that appears only briefly.

4. Camera

Camera pictures and videos can be stored in your Tablet PC.

5. Gallery Go

Gallery Go. Gallery Go is a light, fast and easy to use offline gallery. You use Gallery Go to view pictures that you've with camera, downloaded. You can perform basic editing tasks on pictures and set them as your wallpaper or contact picture.

6. WI-FI

To browse the web, you need switch on Data connection. If there is Wi-Fi around, you can switch on Wi-Fi to use it browse the web some may need password.

7. Music

You can download music via the Internet. Music player will automatically recognize the file.

WARRANTY

1. All products will be given days,REPLACEMENT warranty but to factory defects only.
2. Company provides a 13 months free service warranty from the date of purchase.
3. Service warranty covers repair cost but does not include cost of parts such as LCD BOARD and any other parts of the unit. This warranty excludes all accessories charger, cable headset. But a provision for a replacement is hereby given from the date of purchase against manufacture's defect.
4. This warranty excludes the following circumstances;
 - The product have been repaired, serviced, modified by a third party.
 - Damage/ defect results from mishandling, incorrect usage or from natural disaster.
5. Service charge will be imposed from those units that are voided and out of warranty.
6. The warranty is valid only to the original purchaser with a proof of purchase from authorized dealer. Date of purchase must be clearly, identified.
7. The service request from should be properly accomplished and forwarded to the Principal for the unit to be recognized and honored by service center.

FCC Statement Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.	SAR Information Statement Your Tablet PC is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radiofrequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The exposure standard for Tablet PC employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. * Tests for SAR are conducted with the Tablet PC transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the Tablet PC while operating can be well below the maximum value. This is because the Tablet PC is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output. Before Tablet PC model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government adopted requirement for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this Tablet PC when worn on the body, as described in this user guide, is 0.949 W/Kg (Body-worn	measurements differ among Tablet PC models, depending upon available accessories and FCC requirements). While there may be differences between the SAR levels of various Tablet PC and at various positions, they all meet the government requirement for safe exposure. The FCC has granted an Equipment Authorization for this Tablet PC with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this Tablet PC is on file with the FCC and can be found under the Display Grant section of http://www.fcc.gov/oet/foiaid after searching on FCC ID: 2AZYA-AS12L Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications Industry Association (CTIA) web-site at http://www.wow-com.com. * In the United States and Canada, the SAR limit for Tablet PC used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements. The SAR test distance is 0mm.
