

IMPORTANT PRODUCT AND SAFETY INSTRUCTIONS

BATTERY LIFE

The battery icon on the app's diffuser control page shows your diffuser's battery life. If your diffuser is not performing as you think it should, charge the battery all the way for optimal performance. The Pura Car Pro features a rechargeable battery that lasts up to 15 hours on a single charge.

BATTERY INFORMATION

Pura Car Pro™ has an internal lithium-ion rechargeable battery that provides top-of-the-line performance, making the battery lighter, more powerful, faster to charge, and longer-lasting. A battery-powered diffuser also means that you can take it with you anywhere you go. If you suspect that there may be liquid in the charging components, including cables, connectors, or ports, do not plug it into a power source.

Using damaged cables, AC adapters, or charging when moisture or debris is present may cause overheating, fire, electric shock, injury, or damage to your diffuser. Do not charge your diffuser if exposed to temperatures above (113° F), as the battery may overheat or pose a risk of fire.

Do not attempt to replace the battery yourself. Tampering with the diffuser may cause damage such as overheating, fire, and/or injury. The lithium-ion battery in your diffuser should be serviced or recycled by Pura or an authorized service provider and must be recycled or disposed of separately from household waste. Dispose of batteries according to your local environmental laws and guidelines.

DISPOSAL

Pura Car Pro must be recycled or disposed of separately from household waste. Dispose of the diffuser at a collection point designated by local authorities. The separate collection and recycling of your product at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.

PLACEMENT

As with any portable and potentially loose object in a moving vehicle, it is recommended to secure the diffuser at a location in the vehicle that is below the driver's waist area for personal safety while driving. Do not place above waist level. Do not hang from rearview mirror. Do not hang from visor. Pura is not liable for device placement in case of damage or injury.

FCC COMPLIANCE

See Compliance Statement Insert

SAFETY & HANDLING

Interacting with diffuser or app while driving can be dangerous and result in property damage, serious injury, or death. Please park your car in a safe location when operating.

CHOKING HAZARD

Assembly contains small parts and is not suitable for children. Parents exercise caution and keep out of reach of children.

STRANGULATION HAZARD

Diffuser comes with a charging cord not suitable for children. Parents exercise caution and keep out of reach of children.

TAMPERING

Use only as directed. DO NOT OPEN, TAMPER WITH, OR DISASSEMBLE the plastic fragrance cartridge or the interior components. DO NOT REMOVE the gel fragrance disc inside. If fragrance gel separates from cartridge, promptly dispose of gel. EYE AND SKIN IRRITANT: Contact with fragrance gel may cause eye or skin irritation. If contact with fragrance gel occurs, wash thoroughly with water. INGESTION: If ingested, do not induce vomiting. Contact poison control immediately. Use only with Pura Car Pro diffuser.
