

 **Safety Precautions:**

- X-500 adopts the second-generation silent patent cold atomization technology to protect the essential oil molecules, its features are: low atomization noise, atomized particles uniform, the turbocharged fan and the atomization channel operate independently, the scent diffusion speed is fast and scent diffusion space is large.
- X500 uses professional diaphragm pump which can work 10000 hours, it works stable and has a long using lifespan. The device adopts microcomputer intelligent control, with five control mode. Each mode can independently set the time and oil concentration. The 260ml essential oil container can work longer time. The mini device is portable for wall mounted or desktop. It is widely used by hotel, 4S shop, shopping mall, show room, branded retail store, cinema and other public places.

Model No	X-500	Machine Size	145x145x187
Oil Capacity	250ML	N.W	0.55 kg
Coverage Area	250 M²	Voltage	DC12V0.5A
Power	5W	Noise	35db
Oil Consumption	1.5g	Install Method	Wall Mounted suspended ceiling

Wall mounting method: 1. Fix the ceiling support and metal hanging plate with screws (pay attention to the notch direction of the ceiling support) 2. Fix the metal bracket on the wall with screws, and then pass through the power cord according to the diagram	Ceiling installation method: 1 1. First pass through the power cord according to the diagram 2. Fix it on the ceiling with screws	Ceiling installation method: 2 1. Tie the bracket to the air outlet or other objects with a tie

[illegible]

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
