Safety Instructions

Read these instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions must be included.

When using the product, basic safety precautions should always be followed to reduce the risk of injury, including the following:

⚠ DANGER Risk of suffocation! Keep packaging materials away from children and pets. These materials are a potential source of danger, such as suffocation.

- ▶ Never use this product if it is damaged.
- ▶ Do not insert any foreign objects inside the casing.
- ▶ Protect this product from extreme temperatures, hot surfaces, open flames, direct sunlight, water, high humidity, moisture, strong jolts, flammable gases, vapors, and solvents.
- ▶ Keep this product out of the reach of children and pets.

Battery Warnings

- ▶ Keep away from children. Seek immediate help if swallowed.
- ▶ Do not dispose of batteries in fire.
- ▶ Store unused batteries in their original packaging away from metal objects. If already unpacked, do not mix or jumble batteries.
- ▶ If the battery leaks, avoid contact with skin and eyes. Rinse affected areas immediately with plenty of clean water, then consult a doctor.

Package Contents

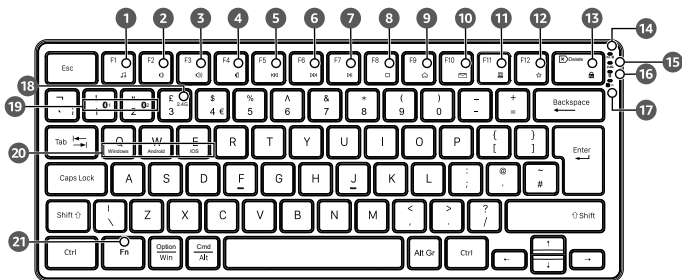

- ▶ Keyboard
- ▶ AAA battery (x2)
- ▶ Nano receiver
- ▶ *User Manual*

Compatibility

- ▶ Windows, iOS, or Android
- ▶ An available USB-C port

Keyboard Back

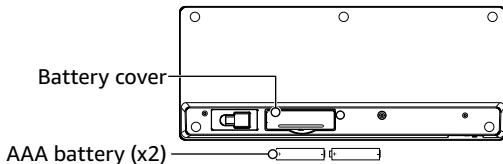

Setting Up the Keyboard

1. Make sure that your keyboard has enough power. See "Replacing the Batteries" on page 7.
2. Connect your keyboard to your device using a wireless connection. See "Connecting the Keyboard" on page 8.

Replacing the Batteries

If the battery indicator is blinking red, replace the battery in your keyboard.

1. Remove the battery cover.
2. Insert two AAA batteries (included). Make sure that the + and – symbols are facing the correct direction.

3. Replace the battery cover.

Connecting the Keyboard

You can connect your keyboard with the 2.4G nano receiver or Bluetooth. Switch between devices by pressing **Fn + 2.4G**, **Fn +**  ₁ (Bluetooth device 1) or **Fn +**  ₂ (Bluetooth device 2).

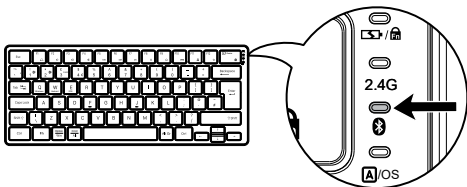

2.4G Nano Receiver

1. Make sure the keyboard batteries are installed. See "Replacing the Batteries" on page 7.
2. Gently remove the nano receiver from the back of your keyboard's nano receiver storage slot.
3. Connect the receiver to your device, and turn on the keyboard.
4. Press **Fn + 2.4G** to switch to the 2.4G channel. The 2.4G indicator lights solid white during use.

Bluetooth

1. Make sure the keyboard batteries are installed. See "Replacing the Batteries" on page 7.
2. Turn on your Bluetooth device, then make sure that Bluetooth is turned on.
3. Slide your keyboard's power switch **ON**.
4. Press **Fn +**  ₁ (Bluetooth device 1) or **Fn +**  ₂ (Bluetooth device 2). The Bluetooth indicator blinks quickly to show it is in pairing mode.

NOTICE: If the Bluetooth indicator blinks slowly, it is not in pairing mode. Press and hold **Fn +**  ₁ or **Fn +**  ₂ for three seconds. The Bluetooth indicator blinks quickly to show it is in pairing mode.

5. Tap **Tab KB BT1** or **Tab KB BT2** on your device's screen, then tap **Add Device**. The Bluetooth indicator is green when connected to BT1 (Bluetooth device 1) and blue when connected to BT2 (Bluetooth device 2). Your keyboard is now connected to your device.

Using the Keyboard

After connecting your device, select your operating system and learn to use your keyboard functions.

Selecting the Operating System

Press **Fn + Windows/Android/iOS** to select your device's operating system. The operating system indicator blinks white three times when the operating system is switched.

Because iOS, Windows, and Android are different operating systems, the definitions given by various brands of tablets and mobile phones may vary. Some functions may be unavailable. See "Identifying Supported Multimedia Keys" on page 10 to determine which functions are available for your operating system.

Using the Multimedia Controls

- Press **Fn + any function key (F1 through F12)**. See "Parts Overview" on page 5 for key descriptions.
- When the  function lock is turned on, you can use multimedia controls without pressing the Fn key. Press the  function lock key to turn the function lock on/off. The function lock indicator blinks red three times when the function lock is turned on or off.

Identifying Supported Multimedia Keys

The table below shows which functions are supported by each operating system. An "X" means the function is supported, and an empty cell means it is not supported.

Icon	Windows	Android	iOS	macOS

	X			
	X			

Waking the Keyboard

Your keyboard automatically goes to sleep if it is inactive for 30 minutes. Press any key to wake your keyboard.

Cleaning and Maintenance

- ▶ Clean your keyboard with a dry, lint-free cloth.
- ▶ Do not allow any water or other liquids to enter the interior of your keyboard.
- ▶ Never use corrosive detergents, wire brushes, abrasive scourers, metal, or sharp utensils to clean your keyboard.
- ▶ Store in a cool, dry area away from children and pets.

Troubleshooting

Problem

My keyboard does not pair with my device.

Solutions

- ▶ Make sure that your keyboard has enough battery life. The battery indicator blinks red when the battery is low. See "Replacing the Batteries" on page 7.
- ▶ Make sure that the power switch is **ON**.
- ▶ Move your keyboard closer to your device.
- ▶ If connecting with the nano receiver, remove and reinsert the nano receiver.
- ▶ Press and hold **Fn** + ₁ (Bluetooth device 1)/₂ (Bluetooth device 2) to reinitiate pairing mode.
- ▶ Make sure that your keyboard is compatible with your device. See "Compatibility" on page 5.

Problem

My keyboard stops working.

Solutions

- ▶ Make sure that your keyboard has enough battery life. The battery indicator blinks red when the battery is low. See "Replacing the Batteries" on page 7.
- ▶ Move your keyboard closer to your device.
- ▶ Your keyboard automatically goes to sleep after some time of inactivity. Press any key to wake your keyboard.
- ▶ Press **Fn + Windows/Android/iOS** to select your operating system.
- ▶ If connecting with the nano receiver, remove and reinsert the nano receiver.
- ▶ Press and hold **Fn +**  ₁ (Bluetooth device 1)/ ₂ (Bluetooth device 2) to reinitiate pairing mode.
- ▶ If the media or function keys stop working, press **Fn +**  (function lock) to turn the function lock on/off.

Specifications

Simplified EU Declaration of Conformity

- Hereby, Amazon EU Sarl declares that the radio equipment type **B0F6TLK93X, B0F6TW1C26, B0F6TWWRPY, B0F6TKX4F4, B0F6T1D6MR** is in compliance with Directive 2014/53/EU.
- The full text of the EU declaration of conformity is available at the following internet address: https://www.amazon.co.uk/amazon_private_brand_EU_compliance

Simplified UK Declaration of Conformity

- Hereby, Amazon EU SARL, UK Branch declares that the radio equipment type **B0F6TLK93X, B0F6TW1C26, B0F6TWWRPY, B0F6TKX4F4, B0F6T1D6MR** is in compliance with the Radio Equipment Regulations 2017.
- The full text of the UK declaration of conformity is available at the following internet address: https://www.amazon.co.uk/amazon_private_brand_EU_compliance

RF Warning Statement

- Do not place the product near any heat sources such as radiators, heat registers, stoves, or other equipment (including amplifiers) that produce heat.
- Do not use the product outdoors during a thunderstorm. Doing so may result in electric shock or device malfunction.

Disposal (for Europe only)

The Waste Electrical and Electronic Equipment (WEEE) laws aim to minimize the impact of electrical and electronic goods on the environment and human health, by increasing re-use and recycling and by reducing the amount of WEEE going to landfill. The symbol on this product or its packaging signifies that this product must be disposed separately from ordinary household wastes at its end of life. Be aware that this is your responsibility to dispose of electronic equipment at recycling centres in order to conserve natural resources. Each country should have its collection centres for electrical and electronic equipment recycling. For information about your recycling drop off area, please contact your related electrical and electronic equipment waste management authority, your local city office, or your household waste disposal service.

Battery Disposal

Do not dispose of used batteries with your household waste. Take them to an appropriate disposal/collection site.

Note to translators: Put below FR sentence and icon in the final French section of the UM:

Information des consommateurs sur la règle de tri (pour la France)

Feedback and Help

We would love to hear your feedback. Please consider leaving a rating and review through your purchase orders. If you need help with your product, log in to your account and navigate to the customer service / contact us page.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

ISED Statement

English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

The digital apparatus complies with Canadian CAN ICES - 3 (B)/NMB - 3(B).

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Sciences et Développement économique Canada.

L'exploitation est soumise aux deux conditions suivantes :

(1) Cet appareil ne doit pas provoquer d'interférences.

(2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

L'appareil numérique du ciem conforme canadien peut - 3 (b) / nmb - 3 (b).

This device meets the exemption from the routine evaluation limits in section 6.3 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 6.3 du cnr - 102 et conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé.

RF Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences. L'appareil peut être utilisé en condition d'exposition portable sans restriction.
