Attn: Director of Certification

Request for Confidentiality – FCC

FCC ID: 2BAC9MS0110001

Pursuant to FCC 47 CFR [0.457\(d\)\(1\)\(ii\)](#) and [0.459](#) and FCC guidance published in [KDB 726920](#), we hereby request confidential treatment of information accompanying this application as outlined below.

We request the exhibits selected below as **long term confidential (LTC)** be withheld from public view permanently:

Selection of exhibits for LTC - general	Exhibit name
☒ Permanent (Long Term)	Block Diagrams
☒ Permanent (Long Term)	Operation Description / Theory of Operation
☐ Permanent (Long Term)	Parts List & Placement / BOM
☒ Permanent (Long Term)	Schematics
Selection of exhibits for LTC - specific ¹	Exhibit name
☒ Permanent (Long Term)	Tune-Up Procedure
☐ Permanent (Long Term)	SDR ² Software / Security Info
Selection of exhibits for LTC (with NDA) ³	Exhibit name
☒ Permanent (Long Term)	User's Manual
☒ Permanent (Long Term)	Internal Photos

Our company has spent a substantial effort in developing this product and it is one of the first of its kind in the industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Confidentiality of the User Manual is maintained by requiring that any party that is supplied a user manual must first sign a non-disclosure agreement. Currently only approved system operators have access to these manuals. Internal photos are kept confidential since the end product is not marketed to general consumers, certified and housed in a sealed enclosure, and is only accessible by trained /approved maintenance personnel. Further, the Applicant has spent substantial effort in developing this product, some aspects of which are deemed to be trade secret and proprietary. Having the subject information easily available to our competitors in this market would negatively affect the advantage we have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

¹ - Tune up procedure is applicable only for licensed equipment.

² - The FCC rules require that any radio, in which the software is designed or expected to be modified by a party other than the manufacturer that would affect the operating parameters of frequency range, modulation type, maximum output power or other radio frequency parameters outside the range under which the transmitter has been approved in accordance with the FCC rules, must be certified as a software-defined radio (SDR).

³ - These items require further information to be provided to TCB before permanent confidentiality will be extended to these exhibits. Please refer to FCC [KDB 726920](#) and review section II, 3) regarding specific information (NDA) that must accompany these requests.

The above information contains trade secrets and proprietary information not customarily released to the public. The public disclosure of this information might be harmful to the applicant and provide unjustified benefits to its competitors. The Applicant understands that pursuant to Rule 0.457(d)(1)(ii), disclosure of this Application and all accompanying materials will not be made before the date of the Grant for this Application.

Sincerely,

Signed by:
