Solder Board-Component View 2	 A photograph of a small electronic component, likely a solder joint or a small board, placed on a blue textured surface. A black L-shaped ruler is positioned next to it for scale. The ruler has white markings in millimeters and centimeters. The component is small and rectangular, with some gold-colored contacts or solder visible.
Solder Board-Component View 3	 A photograph of a larger electronic component, possibly a module or a board, placed on a blue textured surface. A black L-shaped ruler is positioned next to it for scale. The ruler has white markings in millimeters and centimeters. The component is rectangular and features various components, including a central square chip, several smaller components, and gold-colored contacts or solder points.

Solder Board-Component View 6	 A photograph of a small electronic circuit board (likely a baseband or antenna module) placed on a blue textured surface. A black L-shaped ruler is positioned next to it for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board is blue with various components, including a large black chip and several smaller components.
Antenna View	WIFI/BT/GPS Ant GSM1900 ;WCDMA B2 ;WCDMA B4; LTE B2/B4/B66/B41Ant.  A photograph showing the back of a black smartphone with its battery cover removed, revealing the internal components. A black L-shaped ruler is placed next to it for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The battery cover has the word "NIVIC" printed on it. Red boxes highlight the antenna locations: one at the top left, one at the top right, and one at the bottom center. Red lines connect these boxes to labels: "WIFI/BT/GPS Ant" for the top left, "GSM1900 ;WCDMA B2 ;WCDMA B4; LTE B2/B4/B66/B41Ant." for the top right, and "GSM850; WCDMA B5 ; LTE B5/ /B12/B13/B17/B71Ant." for the bottom center. GSM850; WCDMA B5 ; LTE B5/ /B12/B13/B17/B71Ant.
