

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup

Radiation Emission Test Setup (Below 30MHz)

Radiation Emission Test Setup (30MHz to1GHz)	A photograph of a radiation emission test setup for the 30MHz to 1GHz frequency range. The test chamber is lined with white, cross-shaped electromagnetic absorbers. A white, rectangular test fixture is positioned on a black circular turntable in the center of the chamber. The floor is marked with blue and yellow striped safety lines. A metal frame structure is visible on the right side of the chamber.
Radiation Emission Test Setup (1GHz to18GHz)	A photograph of a radiation emission test setup for the 1GHz to 18GHz frequency range. The test chamber is lined with white, cross-shaped electromagnetic absorbers. A white, rectangular test fixture is positioned on a black circular turntable in the center of the chamber. The floor is marked with blue and yellow striped safety lines. A metal frame structure is visible on the right side of the chamber. A black, pointed absorber is visible in the foreground.
