Subject: Requesting Class II permissive change for FCC ID: **2BALY-HC7**

To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for FCC ID: **2BALY-HC7**, original granted on **04/09/2026**;

Applicant: **Efento Sp. z o.o.**

A. DESCRIPTION OF PRODUCT CHANGES

1. Add model number: HC7-EP;
2. Change power supply scheme.
3. External appearance adds Type C USB port.

B. PERFORMANCE DIFFERENCES

Description	Re-testing item	Remark
Maximum output power (BLE)	Need	Measure conducted output power less than original (tune up tolerance keep same).
6dB bandwidth, Power Spectral Density, Band edge measurements and Conducted Spurious Emissions, On Time and Duty Cycle, Emissions at Restricted Band (BLE)	No Need	As conducted output power less than original values.
Conducted power, EIRP/ERP (FCC part 22H/24E/27/90)	Need	Measure conducted output power less than original (tune up tolerance keep same). Measure ERP/EIRP (FCC part 22H/24E/27/90)
Peak-Average Ratio, Modulation Characteristics, Bandwidth, Band Edges Compliance, Spurious Emission at Antenna Terminals, Frequency Stability	No Need	As conducted output power less than original values.
External photos	Need	External add Type C USB port as power supply scheme change
Internal Photos	Need	Power supply scheme change
Test Setup Photos	Need	Measured ac main conducted emission, radiated emission, ERP/EIRP, Radiated spurious emission
RF exposure evaluation	Need	Measure conducted power
Schematic	Need	Change power supply scheme
Radiated Emissions	Need	Minor modify heart rate monitor hardware need measure radiation

		emission
Block diagram	No Need	Not change
Operation Description	No Need	Not change
User manual	No Need	Not change

c. CONCLUSION

This radio continues to meet all FCC standard requirements, including RF Exposure, thus this change does meet requirements a Class II Permissive Change.

Please contact me if you have any questions or need further information regarding this application.

Sincerely,
