

Declaration on mode difference

We, Realsil Microelectronics (Suzhou) Co., Ltd., have the following two modules.
The PKM8721DA-C13-F10 module comes with a PCB printing antenna, while the
PKM8721DA-D23-F10 module is connected to an FPC antenna through IPEX.
The conducted RF performances of the two modules is the same, only the
antenna connected is different

We sign below and confirm that the differences between the following product
models are due to the different antennas used.

Product Name: 2.4GHz/5GHz wireless LAN/Bluetooth module

Models: PKM8721DA-C13-F10 & PKM8721DA-D23-F10

Company: Realsil Microelectronics (Suzhou) Co., Ltd. ✓
