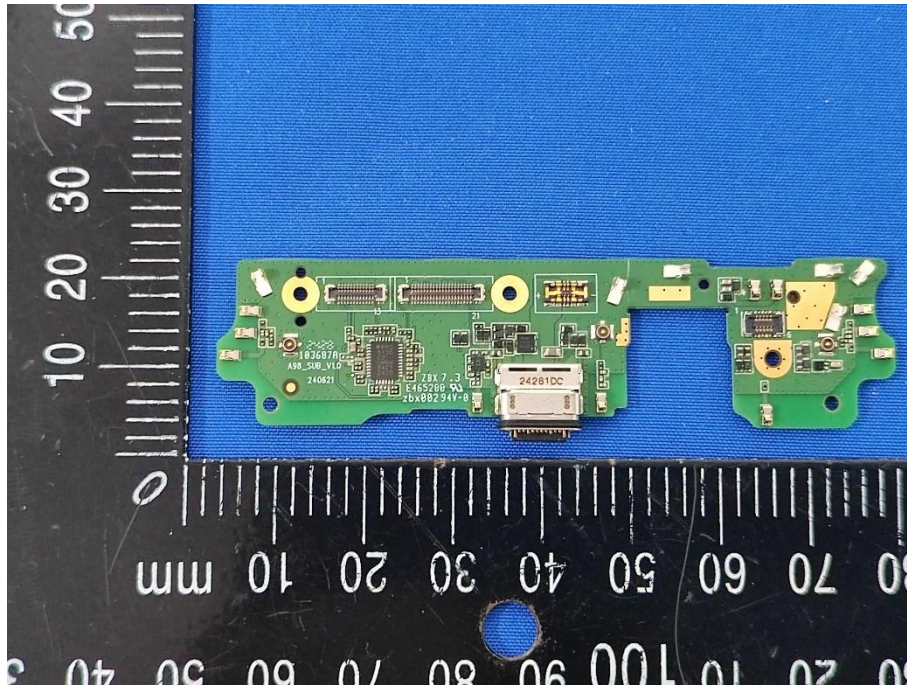

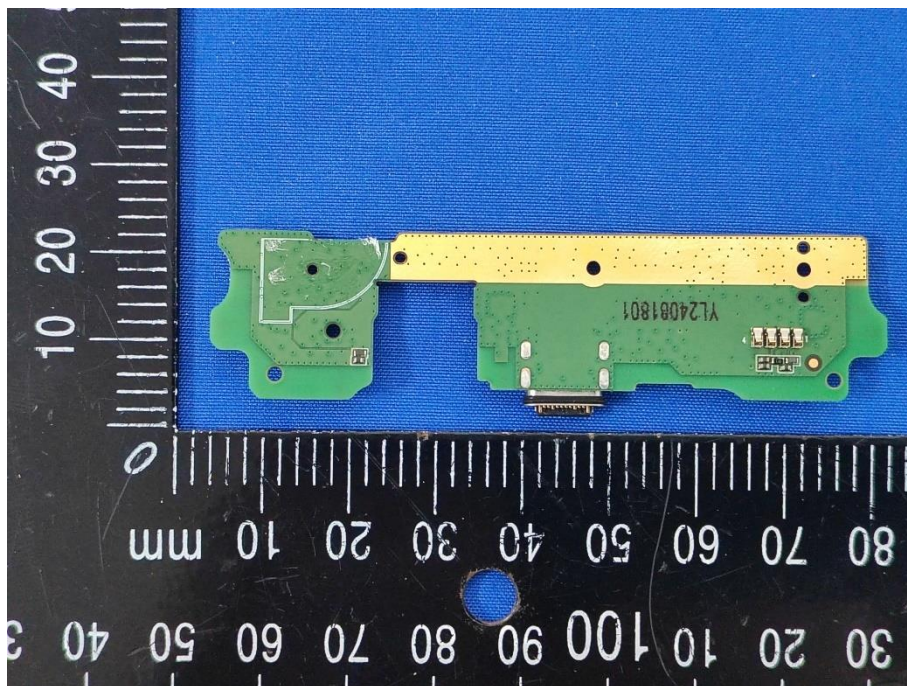

Photo 16

A photograph of a green printed circuit board (PCB) for a mobile device, likely a smartphone. The board is irregularly shaped with several mounting holes and cutouts. It features a large silver-colored metal shield in the center, two smaller silver-colored metal shields on the left and right sides, and a small silver-colored metal shield at the bottom. Various electronic components are visible, including a large black integrated circuit (IC) in the center, a smaller black IC on the left, and a small black IC on the right. A white label with text is located in the center of the board. A ruler is placed horizontally at the top of the image for scale, showing measurements in millimeters (0 to 60 mm) and centimeters (10 to 50 cm). The background is a blue textured surface.
