

VL900ES

Terminal Antenna\862-928MHz

Electrical Specifications:

Frequency band	862-928MHz
Band width	66MHz
Polarization	Vertical
Gain	2±0.5dBi
VSWR	≤2.5
Max. input power	20watts
Input impedance	50Ω
Antenna type	Monopole

Environmental Specifications:

Operating Tempt.	-40°C to + 60°C
Rated Wind Velocity	60m/s
Relative Humidity	Up to 80%

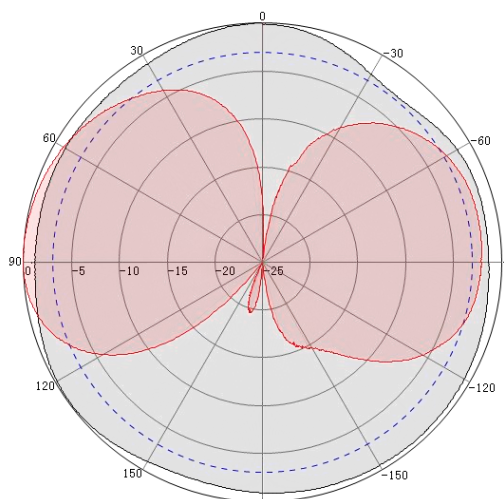

Mechanical Specifications:

RF connector interface	RPSMA male
------------------------	------------

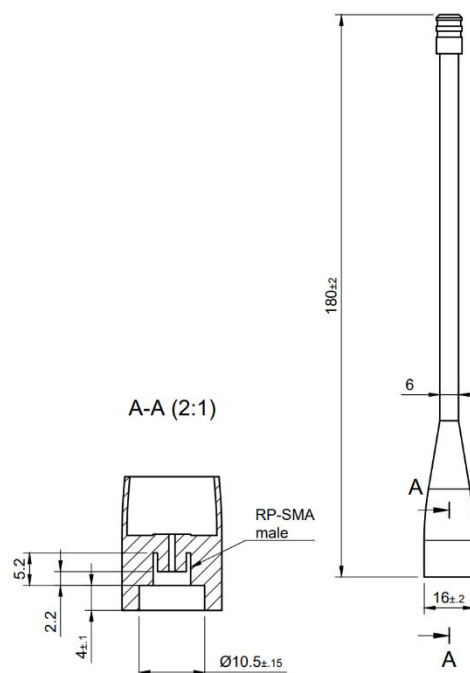

Dimension & weight:

Antenna height	p16x 180mm
Net weight	30g
Shipping package	500units/carton
Packed dimensions	40*30*20cm
Shipping weight	15.5kg

Radiation patterns:
