

WIRELESS FAST CHARGING PAD

USER MANUAL

Supplied Accessories:

- FCC ID:2BAZE-JF2117
- REF : JF2117
- Input: 5-12VDC, 20W
- Output: Max. 10+5W

Features:

- Charges two devices simultaneously
- Works with compatible mobile phones
- IK08 shock resistance
- Strong magnets on the rear allow for easy mounting on magnetic surfaces as well as built-in screw holes for permanent mounting

Specifications:

- Material:
Ultra tough nylon, Aluminium, Rubber, PC&TPE
- If charging by wireless pad:
Charging time: Approx 3.0-8.0 hours depending on battery pack - the environmental temperature will affect the charging and discharging period of the battery
- Operating temperature:
-5°C to +30°C
- Charging pad measurements:
265 x 110 x 29 mm
- Net weight: 330g (packaging not included)

Disposal and environmental protection

- Do not dispose of charging pad with domestic waste
- Please check with local recycling plants for the best way to recycle
- This charging pad contains substances that may be harmful to the environment and humans if disposed of inappropriately

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1、Reorient or relocate the receiving antenna.
- 2、Increase the separation between the equipment and receiver.
- 3、Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4、Consult the dealer or an experienced radio/TV technician for help.

MPE caution

To satisfy FCC / IC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation. To ensure compliance, operations at closer than this distance is not recommended.
