

FCC ID Label Location

Due to the product size is too small for the FCC ID label to be printed, then the FCC ID is placed in the user manual and on the device packaging. See below for more details.

User manual as below:

2. ANC (Noise Cancellation)

- Here you can select ANC (Noise Cancellation).

3. Music Mode and Game Mode

- Click to select "Music Mode / Game Mode."

4. Adaptive Equalizer (EQ)

- You can select 6 different sound effects by swiping the screen.

5. Remote Photography

- You can take photos from your phone by tapping this icon with the camera on.

Charging Function

Fully charge the case and earphones before using for the first time.

1: Charging the charging case

There is a Type-C cable included in the packaging. Connect it to the Type-C charging port and the other end into a USB powered source (Input DC 5V 1A) to charge your case.

2: Earphone charging

When the earphone is low battery, it will prompt "battery low" and it will power off when the earphones completely out of battery.

(a) Put the earphones into the charging case and close the case. The charging case will automatically charge the earphones. During charging, the progress will be displayed in the upper right corner of the case, and 100% will be displayed when fully charged.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications to device will void the user's authority to operate the device.

15.21 Information to user.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.-Consult the dealer or an experienced radio/TV technician for help.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.

FCC ID:2BB37-ELLCATMH-001
