

User Manual

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

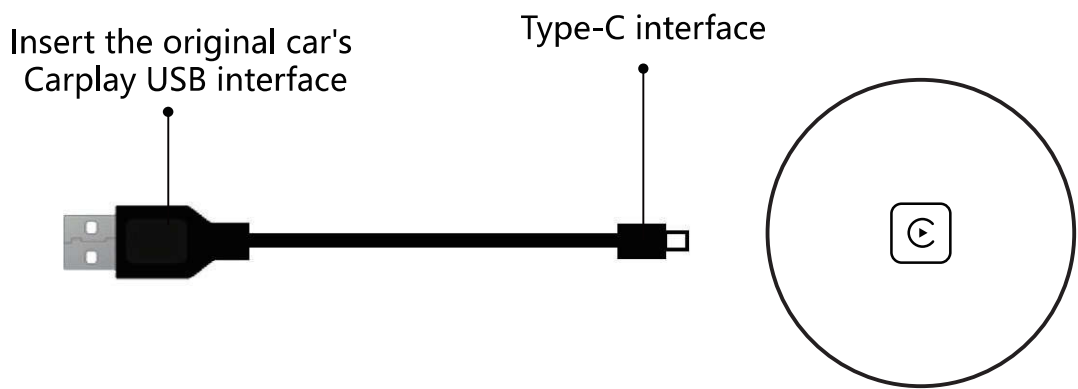

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Step 1: Insert the device into the original car's Carplay USB interface

Step 2: use iPhone to match Bluetooth. The Bluetooth name is smartBox-XXXX

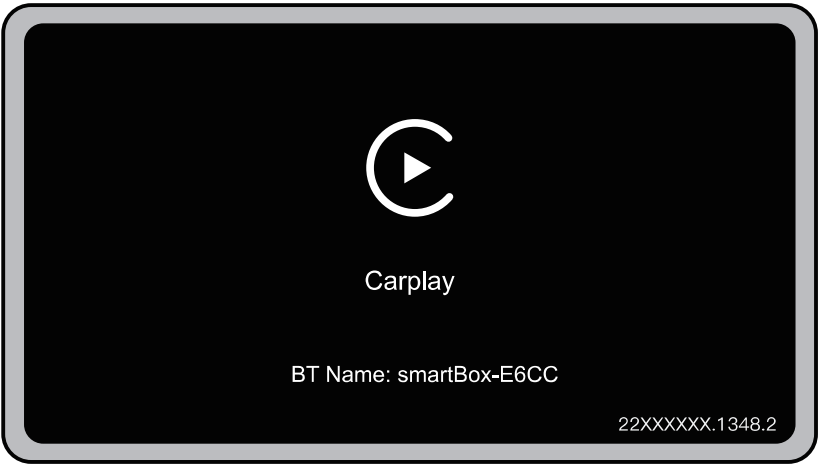

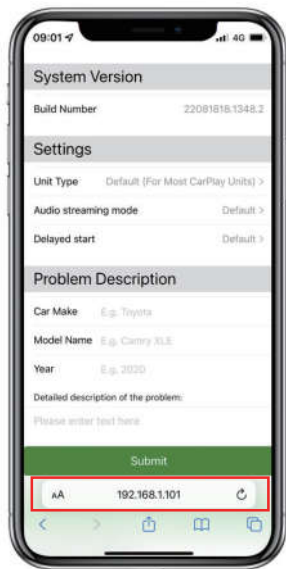

Step 3: after the connection is successful, the mobile phone will display a CarPlay on-board window. Click the button to enter the CarPlay interface.

Download log:

If there is a fault, connect Bluetooth with your mobile phone and input it in **Safari** <http://192.168.1.101> Enter the equipment information, find the download log and send the files to our staff.

Equipment upgrade:

The equipment can be upgraded by plugging in USB 5V power supply, such as mobile phone charger and vehicle cigarette lighter (plugging in the CarPlay USB port of the original vehicle for upgrading will lead to failure to upgrade)

Upgrade via cigarette lighter USB

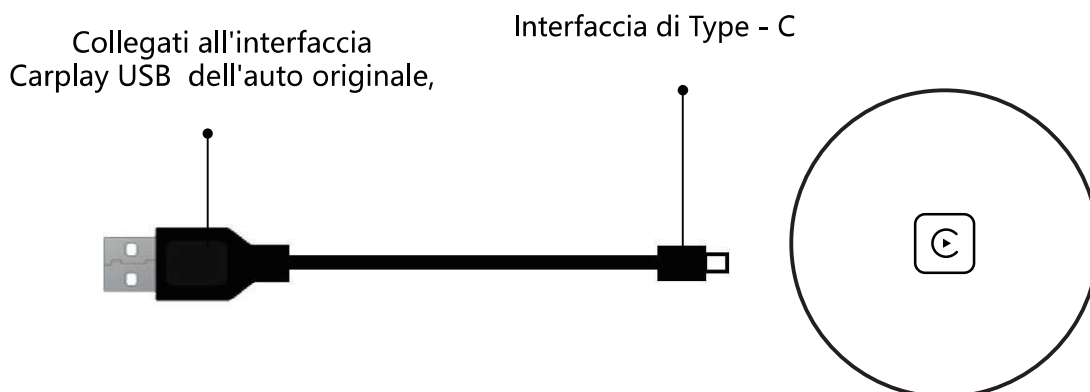

USB upgrade via mobile phone charger

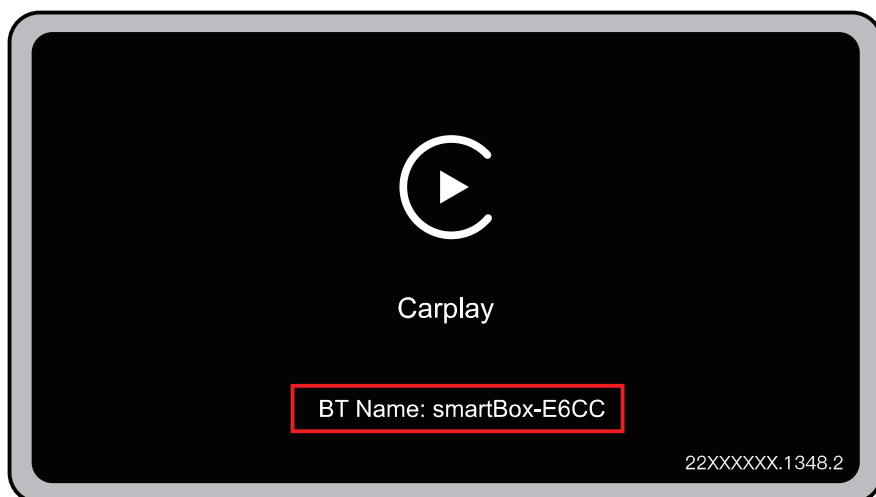

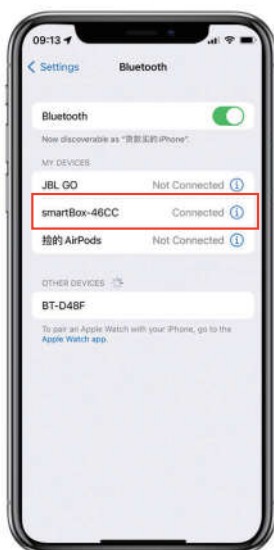

Through the original car CarPlay USB

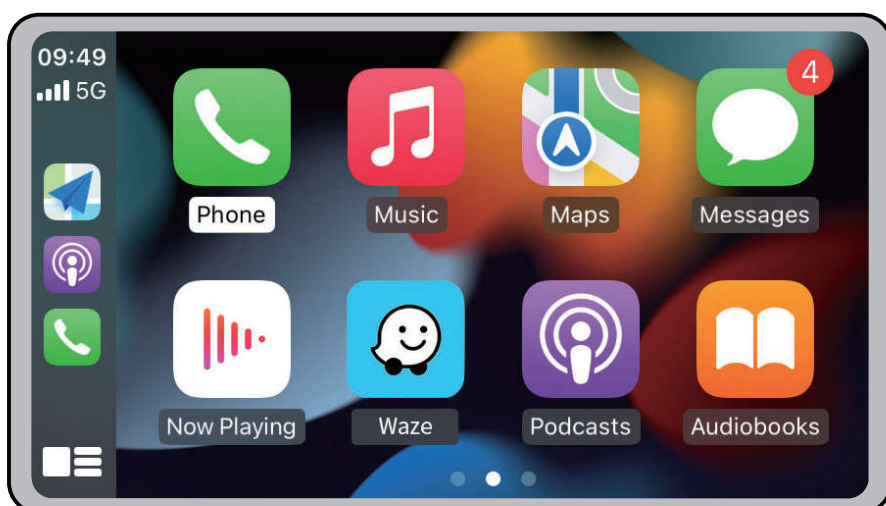

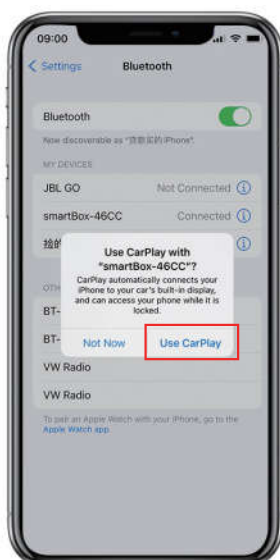

Passaggio 1: Collegare il dispositivo all'interfaccia Carplay USB dell'auto originale

Passaggio 2: usa iPhone per abbinare il Bluetooth. Il nome Bluetooth è smartBox-XXXX

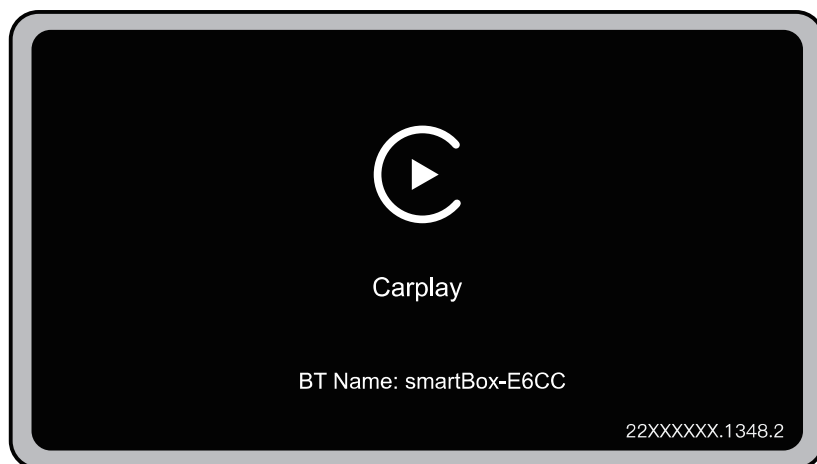

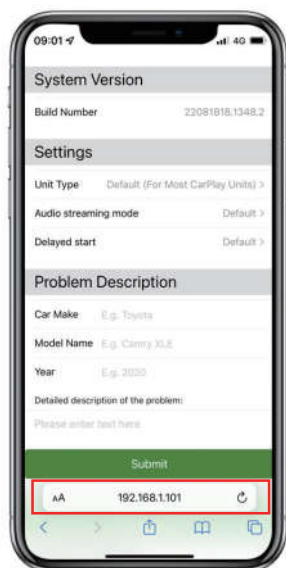

Passaggio 3: dopo che la connessione è andata a buon fine, il telefono cellulare visualizzerà una finestra CarPlay integrata. Fai clic sul pulsante per accedere all'interfaccia CarPlay.

Scarica registro:

Se c'è un guasto, connetti il Bluetooth con il tuo cellulare e inseriscilo in **Safari** <http://192.168.1.101> Inserisci le informazioni sull'attrezzatura, trova il log di download e invia i file al nostro personale.

Aggiornamento dell'attrezzatura:

L'apparecchiatura può essere aggiornata collegando l'alimentatore USB 5V, come il caricatore del telefono cellulare e l'accendisigari del veicolo (collegando la porta USB CarPlay del veicolo originale per l'aggiornamento si verificherà un errore nell'aggiornamento)

Aggiornamento tramite

telefono cellulare

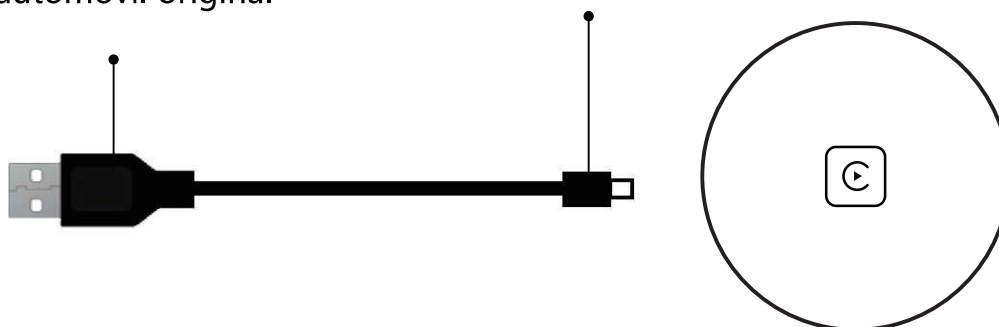

Attraverso l'auto originale
CarPlay USB

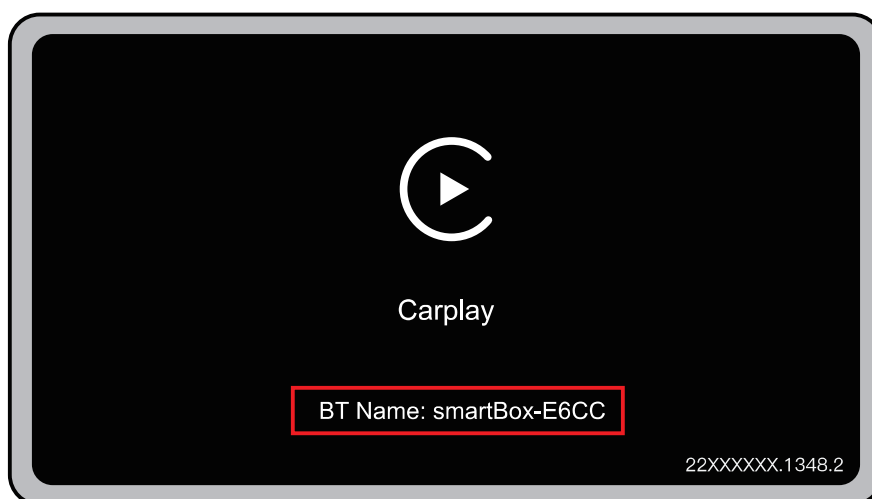

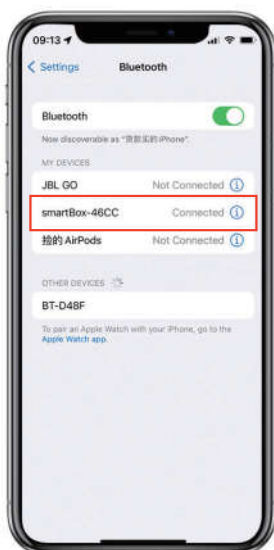

El paso 1: Inserta el dispositivo en el puerto Carplay USB del coche original.

Conéctese a la interfaz Carplay USB
del automóvil original

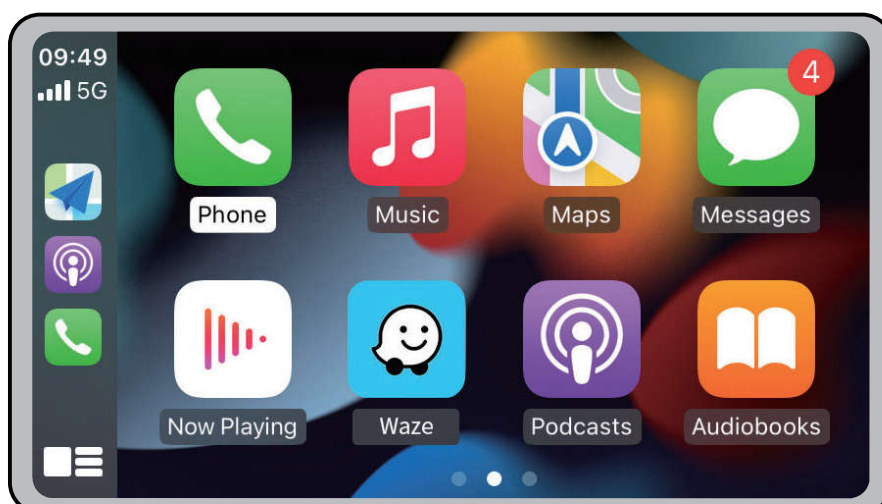

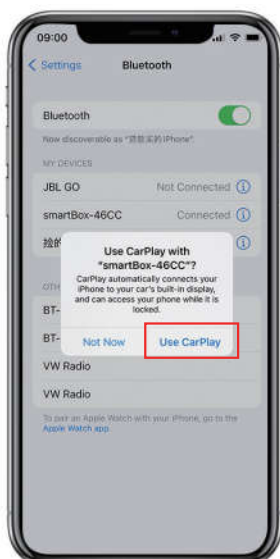

Interfaz Type - C

El paso 2: utilizar el iPhone para emparejar el Bluetooth. El nombre del Bluetooth es smartBox-XXXX

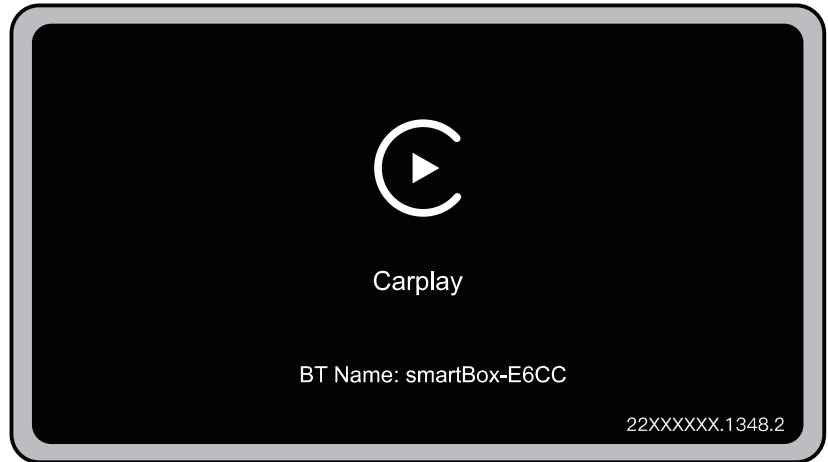

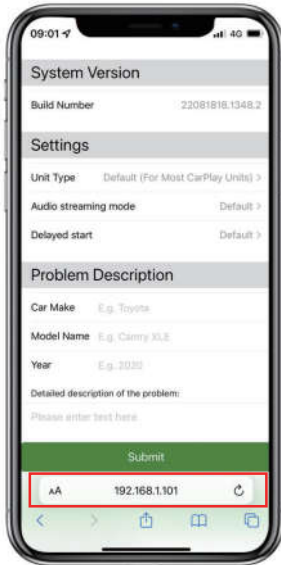

El paso 3: después de que la conexión sea exitosa, el teléfono móvil mostrará una ventana de CarPlay a bordo. Haga clic en el botón para entrar en la interfaz de CarPlay.

Descargue el registro:

Si hay un fallo, conecte el Bluetooth con su teléfono móvil e introdúzcalo en **Safari** <http://192.168.2.1>. Introduzca la información del equipo, encuentre el registro de descarga y envíe los archivos a nuestro personal.

Actualización del equipo:

El equipo se puede actualizar enchufando la fuente de alimentación USB de 5V, como el cargador del teléfono móvil y el encendedor del vehículo (si se enchufa el puerto USB de CarPlay del vehículo original para la actualización, no se podrá actualizar)

Actualización a través del USB del encendedor de cigarrillos

Actualización por USB a través del cargador del teléfono móvil

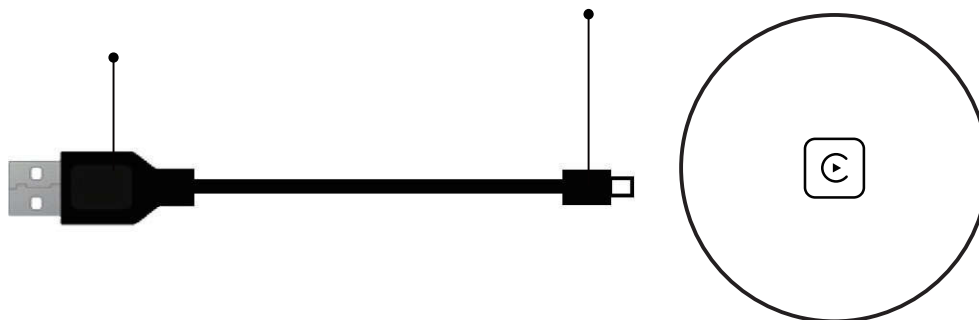

A través del USB CarPlay del vehículo original

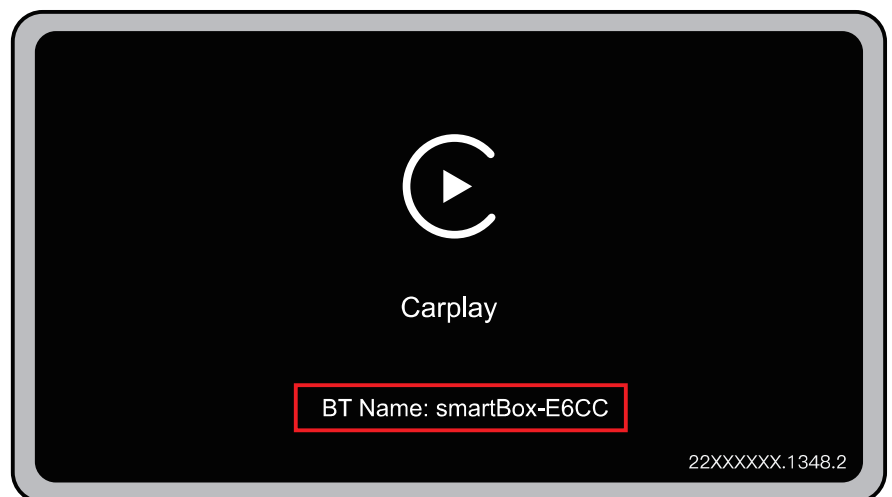

Étape 1 : Branchez le port Carplay USB de la voiture d'origine

Branchez l'appareil sur
l'interface Carplay USB

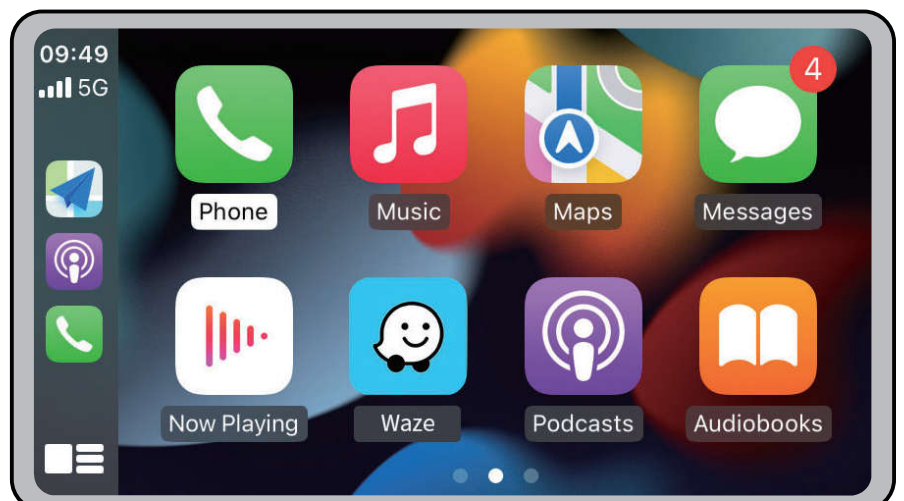

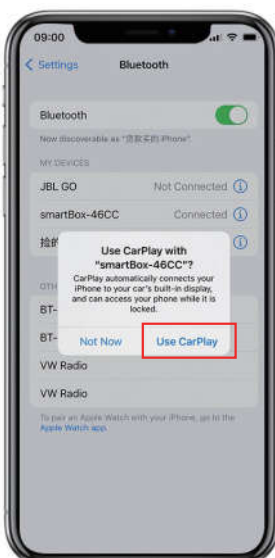

Type-C de la voiture d'origine

Étape 2 : utilisez l'iPhone pour faire correspondre le Bluetooth. Le nom Bluetooth est smartBox-XXXX

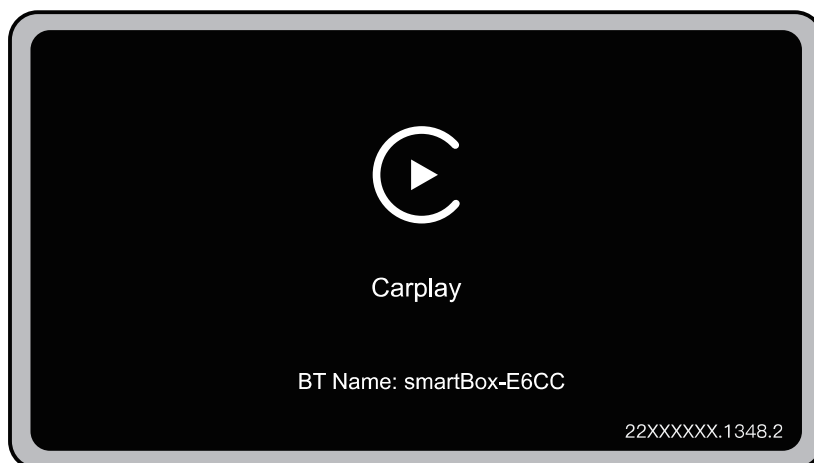

Étape 3 : une fois la connexion réussie, le téléphone mobile affiche une fenêtre CarPlay embarquée. Cliquez sur le bouton pour entrer dans l'interface CarPlay.

Téléchargez le journal :

S'il y a un défaut, connectez Bluetooth avec votre téléphone mobile et saisissez-le dans **Safari** <http://192.168.2.1> Entrez les informations sur l'équipement, trouvez le journal de téléchargement et envoyez les fichiers à notre équipe.

Amélioration de l'équipement :

Les équipements peuvent être mis à niveau en branchant une alimentation USB 5V, telle que le chargeur de téléphone portable et l'allume-cigare du véhicule (le fait de brancher le port CarPlay USB du véhicule d'origine pour la mise à niveau entraînera l'échec de la mise à niveau).

Mise à niveau via l'allume-cigare USB

Mise à niveau USB via le chargeur de téléphone portable

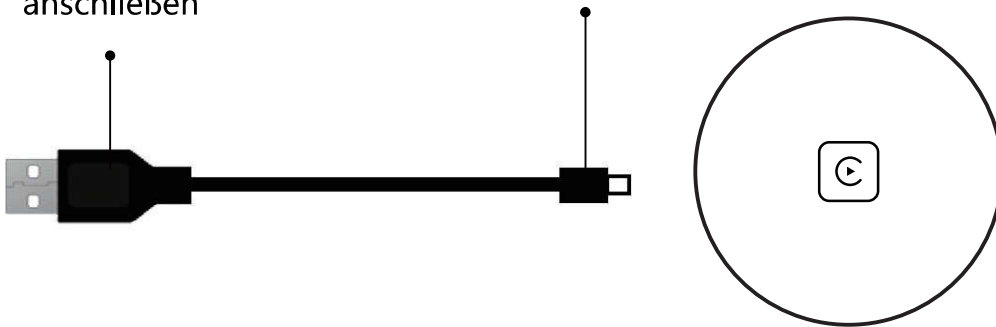

Mise à niveau via le port USB CarPlay du véhicule d'origine

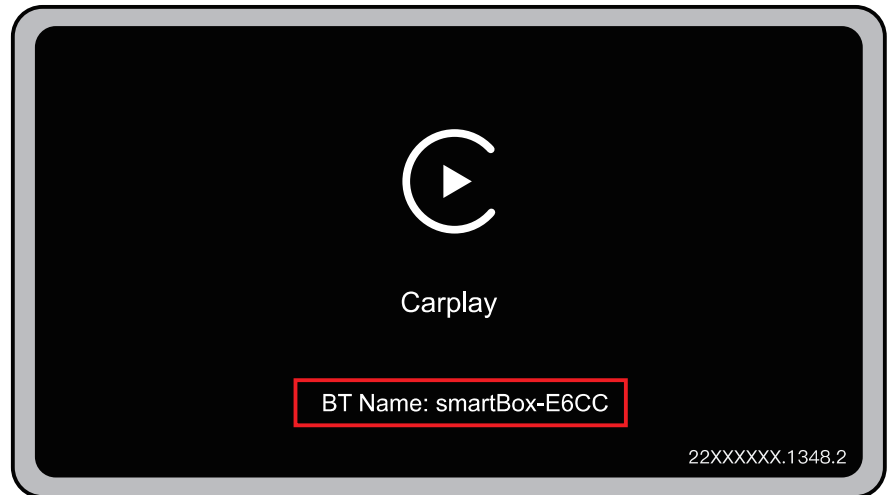

Schritt 1: Verbinden Sie das Gerät mit dem original Carplay USB-Port

An die Carplay USB-Schnittstelle
anschließen

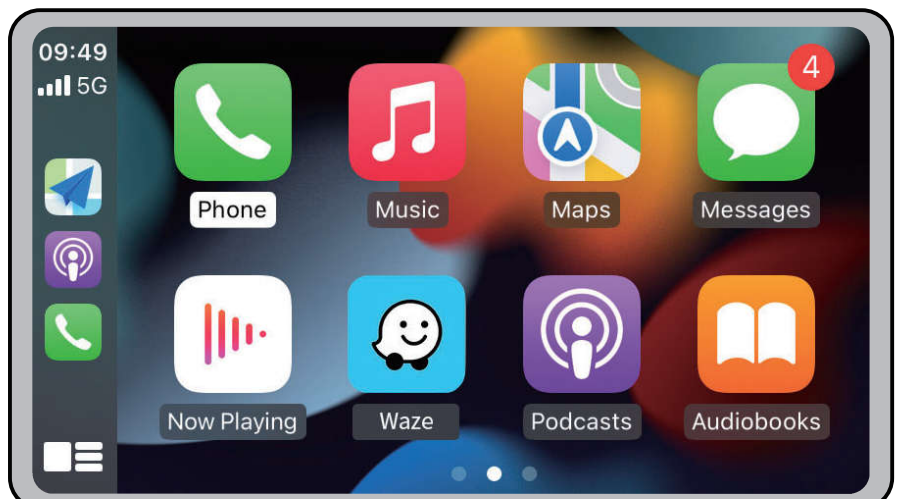

Typ-C-Schnittstelle.

Schritt 2: Verwenden Sie das iPhone, um Bluetooth anzupassen. Der Bluetooth-Name ist smartBox-XXXX

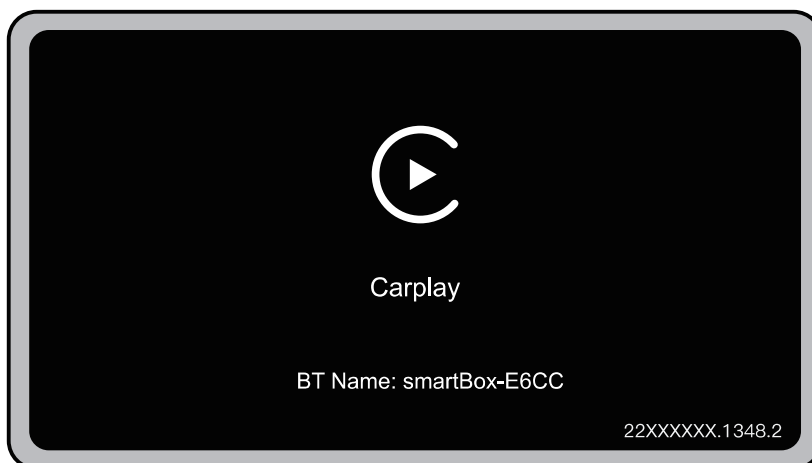

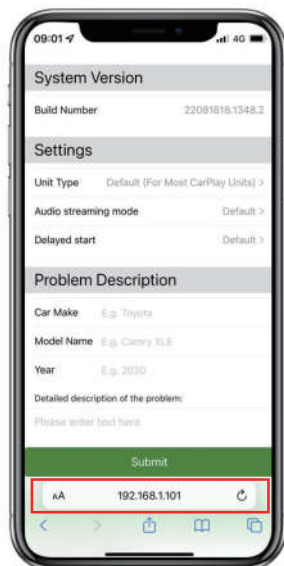

Schritt 3: Nachdem die Verbindung erfolgreich hergestellt wurde, zeigt das Mobiltelefon ein CarPlay-Bordfenster an. Klicken Sie auf die Schaltfläche, um die CarPlay-Schnittstelle zu öffnen.

Protokoll herunterladen:

Wenn es einen Fehler gibt, verbinden Sie Bluetooth mit Ihrem Mobiltelefon und geben Sie ihn in **Safari** <http://192.168.2.1> ein. Geben Sie die Geräteinformationen ein, suchen Sie das Download-Protokoll und senden Sie die Dateien an unsere Mitarbeiter.

Geräte-Upgrade:

Das Gerät kann über eine USB-5V-Stromversorgung aufgerüstet werden, z. B. über ein Mobiltelefonladegerät oder den Zigarettenanzünder des Fahrzeugs (das Einstecken des CarPlay-USB-Anschlusses des Originalfahrzeugs für die Aufrüstung führt dazu, dass die Aufrüstung nicht möglich ist)

Upgrade über den USB-Anschluss des Zigarettenanzünders
