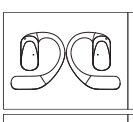
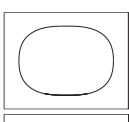
USER'S MANUAL

## Packing list

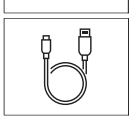


Earphone X2



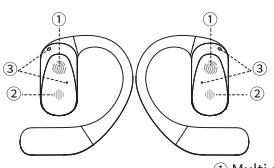
Charging Case X1

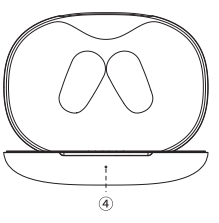
Instructions Manual X1



Type-C Charging Cable X1

## Product diagram





① Multi-function touch keys
② Earphone LED Indicator
③ Microphone
④ Charging Box LED Indicator

## Product parameters

Model:TS06
Wearing style: Open Ear
Material: PC+ABS+PU
Bluetooth Version: Bluetooth V5.4
Pairing Name: TS06
Support Bluetooth protocol:
A2DP1.3/AVCTP1.4/AVDTP1.3
/AVRCP1.5/HFP1.5/SPP1.0
Working Distance: Appr. 10m
Speaker Size: Φ18x11mm /16Ω
Music time: 70% volume for 5 hours

Charging time: about 2 hours
Headphone capacity: 60mAh
Charging capacity: 450mAh
Standby time: >60 days
Input: 5V⎓300mA
Earphones Weight: Appr. 69g

Product components:
1. Earphone: 1 pair
2. Charging case of earphone: 1
3. Type-C charging cable: 1
4. Manual: 1

## Instructions

1. When using earphones for the first time, the left and right ears are successfully paired within 3 seconds after turning on;
2. After the headset is turned on, it automatically enters the pairing state, the indicator light is white and breathing flashes, and the headset prompt tone is "Waiting for connection". At this time, turn on the Bluetooth of the device you want to pair, search for the headset, and click the Bluetooth name "TS06" to pair;
3. The earphones are taken out of the charging compartment, and the left and right earphones are automatically paired and connected back;

Pairing success: When the headset is powered on, the headset automatically enters the search pairing mode, the white light is off, and the Bluetooth is turned on for the first time

Disconnect Bluetooth: Manually or ultra distance disconnect Bluetooth, white light breathing flash, headset prompt tone: "waiting for connection";

**One important note:**
When the pair is successfully paired and connected to the phone, a prompt tone will be sounded and the white light will be turned off. If this is not successful and the indicator is still breathing, repeat the matching steps above.

## Instructions

The headset reconnects to the paired device

① Turn on your mobile phone/Bluetooth device.
② Headphones open the cover in the cabin and turn on automatically.
③ The earphone will automatically reconnect to the last connected phone/Bluetooth device.

**One important note:**

① If the Bluetooth function of the mobile phone/Bluetooth device is enabled after the headset is turned on, it may not be able to connect automatically, you must manually reconnect the headset and mobile phone/Bluetooth device.

② If the phone/Bluetooth device does not automatically reconnect, try manually reconnecting: On the phone device, click the Bluetooth headset name again.

③ Within 5 minutes, if the headset cannot find any connected Bluetooth device within the effective range, it will automatically shut down (the white light is on for 1 second).

## Instructions

**Play/Pause:**Double click on the left or right earphone
**Volume +:** Click right earphone
**Volume –:** Click left earphone
**Previous song：** Three hits left earphone
**next song：** Three hits right earphone

**Restore factory Settings:**
When the device is not connected, tap the left or right earphone five times

## Instructions

Listen to music

This Bluetooth headset supports stereo A2DP. When there is an incoming call, this headset automatically switches to the general voice mode and automatically switches back to the music mode after the call is finished. The conversion process varies according to the time spent by different phone models.

Note: Some smart phones have additional music player programs installed, or some mobile phones do not enable the Bluetooth headset to automatically switch between
music and calls, resulting in the automatic switching function is invalid. If you encounter this problem, it is recommended to ask the original manufacturer of the mobile phone has obtained a perfect answer.

## Instructions

**Headset LED indicator description**
① Power on: White light breathing flash　② Power off: The white light is on for 1 second
③ Waiting for pairing: White light breathing flash　④ After connection: White light out
⑤ Automatic shutdown: The white light is on for 1 second

**Charging bay LED indicator description**
① recharge: Charging bos orange light is on　② Fully charged: The white light is on for 8 seconds
③ Low power alarm: Orange light flashing

**Bluetooth headset battery warning**
In ios 3.x and above, when your phone is paired and connected to the product, it will automatically show the Bluetooth headset power on the status bar.
When the headset battery is low, it will make an announcement.

**Chargers and batteries**
Before using any charger to charge this headset, please check whether the specifications of the charger meet the requirements (it is recommended that the output voltage of the charger is DC5V+/-0.25V, and the output current is 300mA-500mA). Too high charging voltage may damage the Bluetooth headset.

## Instructions

**Warning:**
Use only approved chargers for this package, use of other specifications of chargers may violate the equipment's approval and warranty terms, and may lead to danger. If the factory is shipped with a charging cable, it needs to be connected to a 3C certified charger or computer to charge it. Do not seriously impact this product, serious impact may damage the electronic motherboard and battery.

**Charge the battery**
This headset uses a built-in non-removable rechargeable battery. Do not try to remove the battery from the headset to avoid damage to the headset. If you do not use the headset for a long time, please store it in a dry and ventilated place and charge it once a month.

1. When the white indicator of the connected earphone blinks and the low battery tone is heard, the earphone battery is insufficient. If you continue to use it will automatically shut down, at this time you need to charge, please put the headset back to the charging bin.

2. Plug the charger into the AC power socket.

3. The orange indicator of the charging bay is steady on during charging. If charging does not begin, disconnect the power supply from the charging bay, then plug it back into the headset and try again. After the charging bay battery is fully charged, the orange light turns to white for 8 seconds and goes out. At this time, disconnect the charger from the power socket and the charging bay.

## Matters needing attention

·Do not place the headset in a place that is damp, full of dust, fumes or steam, or exposed to direct sunlight. Do not leave headphones in the car for a long time. Failure may occur.
·Depending on the radio wave condition and where the BLUETOOTH device is used, the device may not work on mobile phones.
·Listening at a high volume with this headset may affect your hearing. For traffic safety, please do not use this headset while driving or cycling.
·Do not use headphones in places where the inability to hear ambient sounds poses a risk, such as railway crossings, train station platforms, pedestrian crossings, and construction sites.
·Do not put heavy objects or pressure on the headset, otherwise it may cause deformation of the headset during long-term storage.
·The build-up of static electricity in the body may cause slight tingling in the ears. Wear clothes made of natural materials to minimize the impact.
·Do not expose this headset to excessive impact.
·Please use a soft dry cloth to clean the earphones.

## Matters needing attention

·Do not expose headphones to water. Headphones are not waterproof. Remember to follow the following precautions.
- Be careful not to let the headphones fall into the sink or other container with water in it.
- Do not use headphones in wet places or in bad weather, such as rain or snow.
- Do not wet the earphones. If you touch the earphone with wet hands or place the earphone in wet clothing, the earphone will get wet, which will cause the earphone to malfunction.
·Because the product is magnetic, keep away from bank cards, floppy disks, mobile phones, computer monitors, televisions and other electronic products.
·If you feel uncomfortable after using the BLUETOOTH device, stop using the BLUETOOTH device immediately. If the problem persists, contact your local dealer.
·If you have any questions or questions about this headset that are not covered by this description, please contact your local distributor.

## Declaration of hazardous substances in products

| Part name | Harmful Substances | | | | | |
|---|---|---|---|---|---|---|
| | (Pb) | (Hg) | (Cd) | (Cr(VI)) | (PBB) | (PBDE) |
| Host machine | ○ | ○ | ○ | ○ | ○ | ○ |
| Accessories | ○ | ○ | ○ | ○ | ○ | ○ |

This form is compiled in accordance with SJ/T 11364-2014.
○: Indicates that the content of the hazardous substance in all homogeneous materials of the part is in below the limit required by GB/T 26572.
×： Indicates that the hazardous substance at least in a certain homogeneous material of the part exceeds The limit requirements specified in GB/T 26572, And there are currently no mature alternatives in the industry.
The number in this label indicates that the environmental protection life of the product under normal use is 10 years.

**FCC Warning Statement**
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
