GlocalMe

KeyTracker for Pet S

QUICK START GUIDE

1. Download GlocalMe App

• Download and install GlocalMe app on your mobile phone

2. Create a GlocalMe Account (In App)

• Click【Login】- 【Register】
• Follow the steps to register an account
(You can register with email or mobile phone number)

Note: Screens and settings in this user manual may vary by software version.

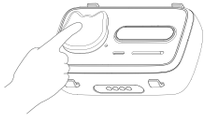

3. Link Device with GlocalMe App

• Open GlocalMe App and click【Device】-
【Add a device by QR code】
• Scan the device QR-code on the back of the device model

4. Turn On Device

• Press and hold the power button for 3 seconds .
(if you cannot turn on the new device, please charge the device and wait for device to be fully charged)

【Function Introduction】

Brand：GlocalMe　　Model No.:GLMT24A01

Technical Specification:

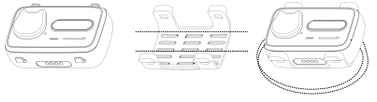

• Size：　55*33*18.5mm
• Positioning Technology：GPS，BDS，GLONASS，WiFi，Bluetooth，LBS，Active Radar
• LTE FDD：　B1/2/3/4/5/7/8/12/13/17/18/19/20/25/26/28/66
• LTE TDD：　B38/B41
• Power：　600mAh(TYP)
• Power Input：　DC 5V ⎓ 500mA
• Port：　Magnet port（Input）

Function Introduction

1. Power on: Press power button for 3 seconds.
2. Power off: Press power button for 3 seconds.

【How to Wear】

1. Put pet collar through the silicon strap
2. Securely fasten strap to device's hooks
3. Put collar on pet and adjust
Note: The width of the pet collar should not exceed 3 CM.

【How To Use GlocalMe Life Service?】

For comprehensive details about the GlocalMe Life service, including usage instructions and feature introductions, kindly refer to the user guide for Device located in the product manual section at the bottom of webpage via the link below or by scanning the QR code.

Warning

Specific Absorption Rate (SAR) refers to the rate at which the body absorbs RF energy. The SAR limit is 1.6 watts per kilogram in countries that set the limit averaged over 1 gram of tissue and 2.0 watts per kilogram in countries that set the limit averaged over 10 grams of tissue. During testing, the device are set to their highest transmission levels in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value.

EU Regulatory conformance

The device complies with RF specifications and when used with an accessory that contains no metal and that positions the device a minimum of 0.5 cm from the body.
The SAR limit adopted is 2.0W/kg averaged over 10 grams of tissue. The highest SAR value reported for the device when properly worn on the body complies with the limit. Hereby, HONG KONG UCLOUDLINK NETWORK TECHNOLOGY LIMITED declares that this device is in compliance with the essential requirements and

FCC Regulatory conformance

For body worn operation, the device complies with FCC RF exposure guidelines and when used with an accessory that contains no metal and that positions the device a minimum of 0.5 cm from the body. The SAR limit adopted by the FCC is 1.6W/kg averaged over 1 gram of tissue. The highest SAR value reported for the device when properly worn on the body complies with the limit.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause.

Undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and complies with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur during installation. If the device does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is suggested to try to correct the interference by the following measures:
--Reorient or relocate the receiving antenna.
--Increase the distance between the equipment and receiver.
--Connect the equipment to an outlet on a different circuit to the receiver.
--Consult the manufacturer or an experienced radio/TV technician for help.

Information on the disposal and recycling of the device
This symbol (with or without a solid bar) on the device, batteries (if included), and/or the packaging, indicates that the device and its electrical accessories (for example, a headset, adapter, or cable) and batteries should not be disposed of as household garbage. These items should not be disposed of as unsorted municipal waste and should be taken to a certified collection point for recycling or proper disposal. For detailed information about device or battery recycling, contact your local city office, household waste disposal service, or retail store. Disposal of the device and batteries (if included) is subject to WEEE.
Directive Recast (Directive 2012/19/EU) and Battery Directive (Directive 2006/66/EC). The purpose of separating WEEE and batteries from other waste is to minimize the potential environmental impacts and human health risk of any hazardous substances that may be present.
Do not disassemble or modify, do not short-circuit, do not dispose in fire, do not expose to high temperature, be disable after soaking. Do not squeeze or bump the battery. Do not continue to use if serious.

CAUTION

Risk of explosion if the battery is replaced by an incorrect type
disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;
leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;
a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.
